#ICED2015

# President's Welcome

## Dear Colleagues

Welcome to Boston, and to the Academy for Eating Disorders 2015 International Conference on Eating Disorders. If this is not the conference that you were expecting to be at, then now would be a good time to check your itinerary.

Our theme this year is 'Communication: iCED Today and Tomorrow', reflecting the need for us to focus on the role of social media, telemedicine and technological advances in prevention, identification, assessment and treatment of eating disorders. The conference will consider both the potential positives and the potential negative impacts of these developments in the field. (Incidentally, those who know me will understand that I initially assumed that the small 'i' in iCED was a typo. What an old fart, eh?)

The conference theme will be strongly reflected in the keynote, delivered by Cindy Bulik, and in the first plenary session, so that we can keep the issue of technological opportunities and drawbacks prominent in our thinking throughout the rest of the meeting. It is also prominent in the biological plenary, which addresses the growing evidence regarding neuromodulation. Similar issues are scattered throughout workshops, papers and posters.

However, there will be plenty for everybody. In short:

- ❖ the treatment plenary is a must for everyone who has an interest in the state of play regarding our psychological therapies. This topic is one that we will return to at the end of the conference, with the Research-Practice Think Tank.
- ❖ the wildcard plenary addresses the thorny issue of exercise – good or bad for our patients?
- ❖ there is a splendid range of workshops, with presenters having been asked to focus on skills development, so that the tricky thing will be choosing which ones to go to.
- ❖ the papers and posters will present the latest research in the field of eating disorders, from blue-sky thinking to practical applications.

Of course, if you are attending a pre-conference Teaching Day, then you will have an opportunity to develop in-depth understanding and skills in specific clinical and research domains.

Don't forget the other elements of the ICED. You might think that you will get quiet breaks, but we like to keep you busy. There are:

- ❖ 24 different Special Interest Group meetings
- ❖ a mentor-mentee breakfast
- ❖ a meet and greet for non-members
- ❖ a session for tweeters (what?)
- ❖ the opportunity to meet the editors of the International Journal of Eating Disorders (in case you are thinking that it is your turn to get writing)
- ❖ a meet the experts session
- ❖ and, of course, the Awards Ceremony and AED Business meeting (not to be missed – it is the last chance for anyone to impeach me before I get off scot free)

And all that is without even thinking about all the other meetings that are for specific committees. If you want to find out what happens in those, you will have to volunteer for a committee next year... You will get coffee breaks, of course, when you are encouraged to meet the exhibitors and steal as many chocolates and pens as you can carry.

One last thing...the social side. You are positively encouraged to attend the social events and to have fun. Last year, Pam Keel noted that the AED was 21 years old and had reached the legal age to drink alcohol in the USA. All I can say is that the rest of us started much younger. If you have any doubts about that, then make sure that you check out the evidence at the Welcome reception, the Friday reception (admittedly, the walking around the posters can get rather unsteady by this point), and the closing social event on Saturday. Presidents are excused dancing at the closing event, but no-one else is. Next year, it will be past-presidents...

## About the Academy for Eating Disorders

The Academy for Eating Disorders (AED) is a global professional association committed to leadership in eating disorders research, education, treatment and prevention. Our international, transdisciplinary, nonprofit membership organization includes more than 1600 members worldwide, working to prevent and treat eating disorders, such as anorexia nervosa, bulimia nervosa and binge eating disorder.

AED's membership is comprised of high-level professionals and students working and studying in universities, hospitals, research centers and treatment facilities. Membership is divided equally between researchers and clinicians. Approximately 29% of these professional members reside outside of the United States, representing 45 different countries.

AED provides members and the field at large with a variety of services, resources and educational programs, including the invaluable support of a community of dedicated colleagues.

Since the organization was founded in 1993, the International Conference on Eating Disorders (ICED) has been AED's flagship activity and the highlight of the AED year. The ICED is the primary gathering place for professionals and advocates engaged in research, treatment and prevention of eating disorders. Each year, ICED attendees, faculty, supporters and exhibitors create a unique, inspiring and intense environment for education, training, collaboration and dialogue.

## Specific Goals of the Academy for Eating Disorders

- ❖ Generate knowledge and integrate collective expertise about eating disorders.
- ❖ Provide platforms for the promotion of understanding, sharing of knowledge and research-practice integration in the field of eating disorders.
- ❖ Build capacity in the next generation of Eating Disorder professionals.
- ❖ Foster innovation and best practice by recognizing excellence in the field of eating disorders.

## Continuing Education

### Meeting Objectives

As a result of this meeting, participants will be able to:

- ❖ Identify neurobiological, cultural and psychological processes that are common to both eating disorders and obesity.
- ❖ Describe novel treatment approaches for eating disorders and how they can improve the care of patients of the eating disorders.
- ❖ Evaluate the positive and negative influences of social media and related technologies on the etiology and treatment of patients with eating disorders.
- ❖ Discuss risk factors for eating disorders within a culturally-sensitive context and appreciate the need for culturally appropriate, evidence-based treatment development and dissemination.

### Educational Need

The goal of the conference is to assist in closing the gap between research evidence and clinical practice, by informing clinicians about recent evidence and informing researchers about clinical innovations that could lead to enhanced research in the field. In particular, issues of clinical-research interface will be addressed in the sociocultural, treatment and biological domains. Many clinicians are unaware of the breadth and depth of the recent literature in this field. Consequently, the clinicians who attend this meeting will receive the necessary updates to enable them to improve their knowledge and practice in a wide range of areas of practice with this clinical population.

## Unlabeled/Investigation Uses of Products or Devices

The following faculty indicated that they plan to discuss unlabeled or investigational uses of products or devices. They have agreed to disclose this to participants. All other faculty named in this program have completed content validation forms and indicated they would not be discussing unlabeled or investigational uses of any products or devices.

First	Last	Unlabeled or Investigational Use to be Discussed
Timothy	Brewerton	1. Olanzapine for anorexia nervosa. 2. Naltrexone for self-mutilation, cutting, binge eating. 3. Topiramate for binge eating, PTSD. 4. SSRI's for binge eating. 5. Ondansetron for bulimia nervosa. 6. Lisdexamfetamine and other stimulants for binge eating.
Alison	Darcy	I will be reporting data from Recovery Record which is a commercially available smartphone app that clinicians are charged for. I have no financial relationship with the company Recovery Record LLC, however, my co-author Jenna Tregarthen is Chief Executive Officer of that company. She was not involved in the research design, analysis or interpretation of data.
Kyle	De Young	My study reports on the results of a trial of 10,000 lux, full spectrum light therapy in bulimia nervosa.
Alessandra	Gorgulho	Use of deep brain stimulation, peripheral nerve stimulation for indications not currently approved for clinical use. However my lecture is about use of these devices in animal models.
Carlos	Grilo	In the RCT, two anti-obesity medications were used in the design (orlistat, sibutramine); neither are FDA-approved for binge eating disorder and one has been withdrawn from market.
Maria	Kekic	I have used a safe form of non-invasive brain stimulation called transcranial direct current stimulation (tDCS) which is not yet FDA-approved.
Stephanie	Klenotich	The following drugs were used for investigational purposes of my preclinical study looking at the pharmacological mechanisms of olanzapine to reduce anorexic behaviors in mice. Ritanerol Ondansetron SCH23390 Eticlopride Amisulpride L-741,626 SB277011a Our findings suggest an off-label use of Amisulpride to reduce anorexia symptoms.
Elizabeth	Lawson	I may talk about investigations of therapies for bone loss in anorexia nervosa (eg, bisphosphonates, estrogen/progestin therapy)
Gary	Litovitz	Use of psychotropic medications off-label for eating disorder symptoms but FDA approved for use in depression, anxiety, or mood disorders.
Jessica	McClelland	Magstim Rapid 2 machine used to deliver repetitive Transcranial Magnetic Stimulation in Anorexia Nervosa.
Rollyn	Ornstein	We may mention the off-label use of certain psychotropic medications in the treatment of adolescent eating disorders.
Rebecca	Park	Our workshop cites case material from an in progress Pilot study into the use Deep Brain Stimulation in Severe Anorexia Nervosa. The study has full ethical approval and is registered with <a href="http://clinicaltrials.gov">clinicaltrials.gov</a>
Wendy	Spettigue	I am presenting the results of an open label trial of olanzapine for the adjunctive treatment of adolescent anorexia nervosa. I will describe the results, including potential benefits and adverse effects.
Suzanne	Straebler	The use of high doses of fluoxetine (i.e., 80mg, 100mg)
Frederique	Van den eynde	All neuromodulation techniques that I will describe in my presentation are off-label for the treatment of eating disorders. This will be clarified at the beginning of the presentation.

## General Conference Information

### AED Bookseller

Professional Books offers a large selection of eating disorders-related publications. Visit them at the sales desk in the registration area or contact them at [read9books@aol.com](mailto:read9books@aol.com).

### Committee Meeting Rooms

Committee meeting rooms are available for committee or small group meeting at designated times during the conference. Attendees can reserve meeting times by using the sign-up sheet outside the following meeting rooms: Harvard and MIT on the 3rd floor and Nantucket and Provincetown on the 4th floor.

### Conference Recordings

Cannot figure out how to be in two places at once? Want to bring the ICED back to your institution? Problem solved by visiting the sales desk in the registration area to purchase a DVD-ROM of the conference sessions from IntelliQuest Media. Discounts will be extended for onsite orders. You may contact them at +1-866-651-2586 or visit [www.intelliquestmedia.com](http://www.intelliquestmedia.com).

### Continuing Education Desk

The CE/CME desk, located near the registration counter, will be open during Registration hours. However, the desk will remain open until 6:00pm on Saturday, April 25.

### Exhibits

Vendor exhibits will be located in the Back Bay Conference Center on the 3rd floor. Exhibit hours are:

Thursday, April 23	8:00am–8:00pm
Friday, April 24	8:00am–7:45pm
Saturday, April 25	8:00am–11:30am

A light breakfast will be served daily and beverages will be available in the exhibit hall during the refreshment breaks each day. A directory of participating organizations is included in this program on pages 69.

## AED Thanks Members for Donations to the Scholarship and General Funds

AED thanks members and friends who have made contributions to the Scholarship and General Funds. The Scholarship Fund provides funding to sponsor the research and clinician scholarships for the 2015 International Conference on Eating Disorders. The General Fund provides essential support to AED educational, research, clinical and outreach programs. Thank you to all who have so graciously contributed. Special thanks to the participants in the Combined Federal Campaign Program.

### Meeting Evaluation

The ICED Program Committee needs your input to enhance future AED meetings. You will receive an online meeting evaluation via email shortly after the 2015 Conference. AED greatly appreciates your input.

### Message Board

A message board is available in the registration area during the registration hours. Check the board frequently. There will be no paging during the conference.

### Poster Session

Posters will be presented by authors during the AED International Conference and will be available for viewing throughout the meeting. The poster presentations are located in Back Bay Conference Center on the 3rd floor. Poster Session Schedule hours are:

#### Poster Session I:

## Special Interest Groups (SIGs)

All are invited to attend any of the SIG Annual Meetings or SIG Panels. Please see the Schedule-At-A-Glance or the Educational Session section for complete details. SIG meeting participants who did not elect to purchase the optional boxed lunch will receive quick and easy-to-find lunch options within steps of the Marriott hotel. By working with the Boston visitors bureau, the AED will provide attendees with a map with suggestions to allow attendees to step outside within a block or two of the ICED Conference hotel.

## Special Needs

Notify AED staff members of any special needs by visiting the AED registration desk.

## Questions

If you have questions regarding the program or registration, visit the AED registration desk.

## Conference Special Events

### **Tweet Up, Tweet Out!**

Thursday, April 23 from 8:00am–9:00am

Meet your fellow ICED 2015 tweeters in Salons A-B on the 4th floor.

### **Welcome, Conference Goals and Presidential Address**

Thursday, April 23 from 9:00am–9:30am

ICED Program Co-Chairs and AED President Glenn Waller will welcome all attendees to the ICED in Salons E-G on the 4th floor.

### **Keynote—Towards an Engaged Science of Eating Disorders: Opening the Doors to the Ivory Tower**

Cynthia Bulik, PhD, FAED

Thursday, April 23 from 9:30am–10:45am

The Ivory Tower is a safe place, but if researchers and clinicians don't ever step outside, they'll just be talking to each other. The new culture of publicly engaged science has inspired broad initiatives that will lead to major discoveries in the eating disorders field, but only if all stakeholders unite. Dr. Bulik will address these issues and how we can accomplish so much more when researchers, clinicians, patients, parents, partners, and advocates all work together toward the same goals.

### **Welcome Reception**

Thursday, April 23 from 6:30pm–8:00pm

The Welcome Reception is for all registered attendees and will take place in the exhibit hall. Business casual attire is appropriate for this event. Additional Welcome Reception tickets are available for purchase at the AED Registration Desk anytime during regular registration hours. Additional tickets are \$65 USD each for the Welcome Reception.

### **Mentor/Mentee Gathering Breakfast**

Friday, April 24 from 8:00am–9:00am

AED trainee and early professional members will be paired with seasoned AED members at a "meet and greet" breakfast in Salons A-D on the 4th floor.

## **Keynote—Towards an Engaged Science of Eating Disorders: Opening the Doors to the Ivory Tower** **Thursday, April 23 from 9:30am–10:45am**

Cynthia M. Bulik, Ph.D., FAED, is Distinguished Professor of Eating Disorders in the Department of Psychiatry in the School of Medicine at the University of North Carolina at Chapel Hill, where she is also Professor of Nutrition in the Gillings School of Global Public Health, and founding director of the UNC Center of Excellence for Eating Disorders. She is also Co-Director of the UNC Center for Psychiatric Genomics. Dr. Bulik is also professor of Medical Epidemiology and Biostatistics at the Karolinska Institute in Stockholm, Sweden.

### **Meet the Experts**

**Friday, April 24 from 6:15pm–7:45pm**  
**in the 3rd Floor Atrium Lounge**

Established experts in your field will be available for informal discussions to:

- Answer specific questions
- Consultation on clinical cases, practice issues and ethical dilemmas
- Advice on writing grants or publishing your work
- Discuss developing or evaluating an intervention on treatment or prevention.

Attendance is limited. Sign up at the Meet the Experts table located near the registration area by Friday at 4:30pm or as long as space is available.

### **Experts and Topics**

(subject to last-minute changes):

**Anorexia Nervosa**

**CBT Treatment of Binge Eating**

**Family Behavior/Maudsley Therapy**

**Genetics and Neuroimaging**

**Medical Management**

**Multiple Family Group Therapy**

**Non CBT Approaches to Bulimia Nervosa**

**Nutrition and Dietetics**

**Trauma and Substance Abuse**

### **Global Exchange Breakfast**

**Saturday, April 25 from 7:30am–9:00am**

The AED is an international organization that strives for global representation having members from 44 different countries, and in this spirit, we are hosting for the first time this year the Global Exchange Breakfast. Countries not typically represented at ICED and those from countries classified by the World Bank as lower income and lower-middle income were invited to join us for the gathering. The breakfast will be held in the Atrium Lounge on the 3rd floor.

### **AED Awards Ceremony & Business Meeting**

**Saturday, April 25 from 11:30am–1:30pm**

Join us as we honor the 2015 awardees and the 2015 Fellows class at the AED Awards Ceremony & Business Meeting in Salons E-G on the 4th floor. All registered attendees are invited and box lunches will be provided on a first-come, first-served basis.

### **Research-Practice Session**

**Saturday, April 25 from 4:45pm–6:15pm**

Join the discussion on the reflections of this year's conference from the research-practice perspective as led by the Research-Practice Committee in Salon G on the 4th floor. A live Twitter feed will be on hand to showcase the discussion.

### **Closing Social Event**

**Saturday, April 25 from 6:30pm–10:30pm**

Join your colleagues and close out the last night of the conference with a bang! Enjoy cool drinks and delicious hors d'oeuvres while the D.J. gets you out on the dance floor in Salons E-F on the 4th floor. Catch up with your old and new friends while you dance the night away! There will be a cash bar.

Some patients  
come a long way  
to get here.

All of our patients  
**come a long way**  
while they are here.

There are many reasons why people travel from all over the country for treatment at the Center for Eating Disorders Care at University Medical Center of Princeton. Some are attracted by our national reputation and by the fact that other treatment centers send their patients to us. Others require the level of care and expertise that only a hospital-based facility can provide. And some choose us because they want a treatment plan based on their unique needs that gives them the tools to maintain their recovery when they return home.

Regardless of why patients choose us, the Center for Eating Disorders Care at University Medical Center of Princeton offers the following to each one of them:

- A nationally recognized program with a highly experienced treatment team.
- On-site, 24-7 acute medical care facilities.
- A full spectrum of care for patients of all ages that includes inpatient and partial hospitalization programs and aftercare coordination.
- Intensive and effective individual and family therapies combining proven evidence-based treatments with innovative treatment options.
- Warm, compassionate care in our modern, scenic facility with bright, spacious and private patient rooms.

Recovering from an eating disorder is a long journey and no matter how far you travel to get here, you'll definitely go far while you are here. Take the first step today and call us at **877.932.8935** or visit **[princetonhcs.org/eatingdisorders](http://princetonhcs.org/eatingdisorders)**.

# **ONLINE TRAINING IN TRANSDIAGNOSTIC CBT-E FOR EATING DISORDERS (CBT-E)**

**Professor Christopher Fairburn  
University of Oxford**

**The Centre for Research on Eating Disorders in Oxford (CREDO) has developed an online training programme in transdiagnostic CBT for eating disorders (CBT-E).**

The training website provides a detailed description of how to implement the treatment (presented by Chris Fairburn) accompanied by a large number of clinical demonstrations (videos of acted therapist-patient interactions), learning exercises and handouts. It covers the use of CBT-E with the full range of eating disorders seen in clinical practice. It also describes how the treatment may be used with younger patients.

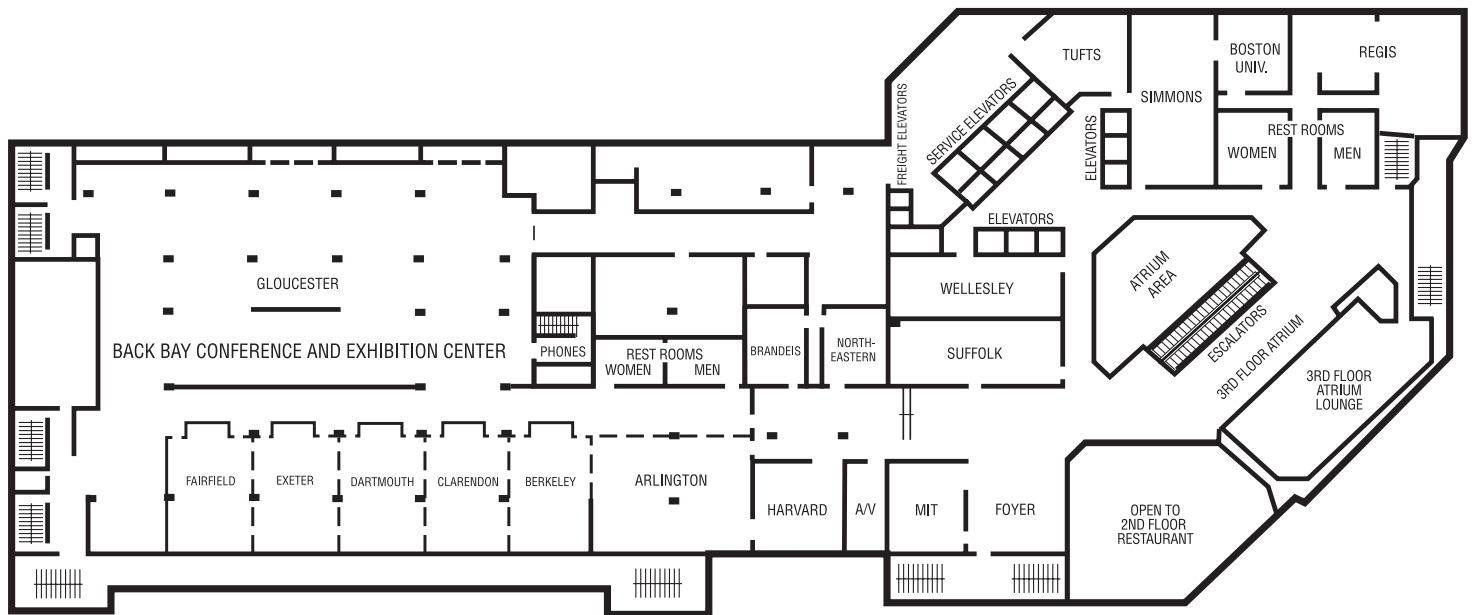

We are making the website freely available to eligible therapists who seriously want to learn how to implement CBT-E. If you might be interested, please contact:

- The Academy reserves the right to make final determination on eligibility for this status.

**Please Refer to the 2015 Dues Table for Pricing (page 3).**

## PAYMENT INFORMATION

Membership year is **January 1** through **December 31**. Dues are billed on a calendar year, and are not prorated. *Journal* subscribers will receive back issues for the months prior to the join date of that membership year.

**\$15** of your dues will be a donation to the AED scholarship fund. No portion of dues is spent on lobbying expenses.

### ☐ Auto Payment

To authorize automatic renewal of your AED Membership, simply check the appropriate box on your Membership Form. You will be charged for subsequent years' dues according to the payment information you provide. AED will send you a reminder notice of the impending automatic debit at least one month before the charge to your account is to be made.

To cancel participation in this program at any time, simply inform AED in writing before **October 1st** of the year for which you wish to cancel your participation. Thereafter, you can renew "Manually" or cancel your membership altogether.

**Freeze the Current Rates Now** to Save and Avoid Future Dues Increases.

## 2015 MEMBERSHIP DUES TABLE

In order to reflect the international nature of our organization's mission and membership, AED uses a tiered dues structure with due levels based on economic indicators which the World Bank applies in order to evaluate all nations. This structure recognizes the impact of varying economic conditions on the relative cost of AED membership to each individual.

The Introductory and New Professional rates are for individuals who are joining the Academy for the first time, and those who have completed schooling of training and are new to the field. The table below shows a listing of dues according to a member's nation of residence and membership category selected.
