AFP Indiana’s objective is to offer our educational resources and the collective professional expertise of our diverse membership – in accessible and user-friendly formats – to assist individuals in building communities through philanthropy as well as building professional fundraising skills.

The Fellows Program is an outreach initiative of AFP Indiana created to build awareness of educational and professional resources. Individuals who have been in the profession for five years or less, including those who have recently transitioned to fundraising from other professions, are encouraged to take advantage of the program’s offerings. The Fellows Program strives to identify those participants who might not have access to such opportunities or resources outside the program.
