

**AFP Central Texas Chapter
Membership Policy
Adopted 2023 and Effective January 2024**

AFP Central Texas Chapter provides our membership with a variety of benefits including monthly educational meetings featuring presentations from leaders in our field. The Chapter Board believes that it is important to focus on serving our membership while also providing accessible and welcoming points of entry for new potential members. AFP Central Texas invites individuals interested in becoming involved in our Chapter to attend two (2) educational meetings per calendar year before formally joining. Membership application and approval will be required to attend additional meetings. This will offer prospective members the opportunity to learn more about our Chapter while ensuring that we continue to provide unique value to our members.
