COVID-19 Policy for In-Person Events

Updated as of June 2022

All in-person events hosted by AFP Minnesota, including events hosted in partnership with other organizations, must adhere to the following policies:

• All in-person events must adhere to all current state and local regulations that pertain to the event in question, including capacity limits, masking, travel restrictions, and venue-specific regulations.

• All large events (defined as having more than 50 in-person attendees), must require and verify that all attendees to be fully vaccinated against COVID-19 (defined as having received 2 doses of the Pfizer or Moderna vaccine, or one dose of the Johnson & Johnson vaccine), or submit a negative COVID-19 PCR test taken within 72 hours of the event.

• Request that individuals experiencing COVID-like symptoms, regardless of vaccination status stay home in pre-event communications.

• All scheduled in-person events must have a contingency plan in place in the event that they cannot continue in-person and comply with local or state regulations. Contingency plans can include reducing capacity, canceling the event, or converting the event to an online format.

• These guidelines are subject to change based on current state and local guidelines.

The AFP Minnesota Board of Directors is responsible for setting and enforcing this policy. Each AFP Minnesota committee is responsible for ensuring their events comply with this policy.
