

## CHUCK ANDERSON

Vice President

[canderson@MissionAdvancement.com](mailto:canderson@MissionAdvancement.com)

Chuck Anderson has led and consulted with nonprofits for more than 20 years. As a Vice President with Mission Advancement, he serves clients across the nation, but primarily in his home state of Texas. Chuck's greatest joy in serving a client is when he can help identify the obstacles and opportunities within the organization in order to focus on a plan for sustainable growth. He does this through campaign or development strategy, campaign planning studies, development diagnostics, board training, and speaking at MAP workshops and professional conferences.

Chuck's strategic counsel has elected political candidates, built new schools, launched international ministry initiatives, and provided resources for hurting families. He has served as Executive Director of a statewide nonprofit, an advisor to the Lieutenant Governor of Texas, founder of a digital fundraising consulting firm, and a volunteer for numerous causes close to his heart.

He and his wife Jennifer make their home in the DFW Metroplex with their two teenage daughters. The entire family loves their church and spending time together in the kitchen. Anytime he is on the road, Chuck is always looking for the most authentic BBQ joint in town.
