

## AFP GDC Virtual Town Hall #12 July 9, 2020

00:46:48 Amber Rahill: I'm working from home 2 days and I'm in the office 3 days of the week

00:46:53 Meredith Rund: I am permanent wfh.

00:47:03 Christa Williams: Ascension Providence Foundation is still working from home

00:47:12 Angela: WFH, but option to go to office

00:47:25 Jennifer Harbeck: Cranbrook Institute of Science is work from home right now. The office is open for occasional half days.

00:47:48 H Lynn: Ditto Christa...working from home (Ascension).

00:47:49 rya00243: 100% offsite. I work in Texas.

00:48:15 Maureen Rovas: American Lung Association nationwide is working from home through Sept 8 (at least) due to the recent increase. We had plans to begin open offices and it looked different everywhere. In Detroit we were staggering

00:51:31 Ryan Michael Dinkgrave: Agreed on the phone software! I just give everyone my mobile number and tell them to use that instead. :)

00:51:39 Ryan Michael Dinkgrave: Luckily, in the grant world, we don't do a ton of calls

00:55:02 H Lynn: No microphone...

00:55:34 Josiah Foster: Mike you have froze

00:57:07 Christa Williams: I tell people I'm working remotely.

01:00:22 Michael: my big challenge is tech -- connectivity mostly

01:00:29 Amber Rahill: printing items

01:00:36 Michael: like today

01:00:56 Meredith Rund: More than just me being at home

01:03:12 Christa Williams: Printing is also an issue, and with HIPPA compliance, we can't print to personal printers.

01:03:17 Brianna Bentley: agreed!! So hard to stay motivated!!

01:05:59 Michael: internet cutting in/out even as we speak

01:07:01 Meredith Rund: having more personal happy hourish engagements with coworkers you might not normally interact with

01:07:46 Brianna Bentley: more relaxed

01:07:50 Brianna Bentley: I am more relaxed

01:08:48 Meredith Rund: Working with software like formstack is hipa compliant and using DocuSign is easy and considered a legally binding signature

01:09:59 Ryan Michael Dinkgrave: I hope I wasn't called on for anything while I was on the phone - of course I would get a call right after saying I don't have to be on the phone much in my role! :)

01:11:00 Ryan Michael Dinkgrave: While I wish my small apartment had room for an office or work area separate from my main living area, I have found working from home to be much better and more productive than I would have ever expected otherwise. I'm cooking at home more now not just due to the pandemic, but because I am able to get things started during the day while I work.

01:11:04 Ryan Michael Dinkgrave: Which means healthier eating!

01:11:08 Michael: sarah is going to deploy the evaluation in a minute

01:11:08 rya00243: Biggest upside of working from home has been being able to reach major donors who are also home at this time. They seem to want to talk more these days. Also, learning to use new technology (like Skype, Zoom and approving invoices, PTO forms, etc.).

01:11:10 Christa Williams: Thank you Meredith for the suggestions!!

01:17:58 Ryan Michael Dinkgrave: Great job, Josiah!!

01:18:04 Sarah Dysinger: You did great Josiah!

01:18:14 Sarah Dysinger: If there are any other questions / comments, please feel free to unmute yourself

01:18:32 H Lynn: Thanks for leading this discussion, Josiah! Nice job!

01:19:11 Christa Williams: Great job Josiah!

01:19:34 Sarah Dysinger: visit [www.afpdet.org](http://www.afpdet.org) to view and register for these

01:20:02 Josiah Foster: Thank you guys!

01:20:07 Ryan Michael Dinkgrave: Hi, Bill!
