Raising major gifts of assets in the aftermath of Covid-19

New strategies for a new world

Russell James, J.D., Ph.D., CFP®
Professor, Charitable Financial Planning
Texas Tech University
Major gifts of assets

**Why?** Why focus on major gifts of assets?

**How?** How can we raise these gifts now (simple version and complex version)
Why not just use the easy button?

Asking for cash is easier:

- You don’t need the hassle
- You don’t need to help your donors; someone else will
- You don’t need to put in the hard work to become a competent advisor, learn new things, and provide value to donors

But asking for assets makes sense because...
1. Because a drop doesn’t mean it isn’t still worth more than you paid for it
2. Because not everything dropped

- Gold 1\textsuperscript{st} quarter growth: 12.68%
- NCREIF Farmland property index 1\textsuperscript{st} quarter growth +3.98%
- WalMart, Amazon, Pharmaceuticals, Clorox are also big winners so far
3. Because there are special one-time opportunities for 2020 in the U.S.

- Sept § 7520 interest rates are the lowest in history
- Can eliminate 100% of income with charitable deductions
4. Because that’s where the wealth is
Financial assets held by families (U.S. Census 2017)

[Link to data source]

97%-99%

- Other financial assets (stocks, bonds, retirement accounts, life insurance, mutual funds)
- Cash: Checking, savings, money market deposit accounts, and similar
5. Because it changes the reference point for the gift
Wealth is not held in cash. It is held in noncash **assets**.

If you are asking from the cash bucket, you are asking from the **small** bucket.
Asset gifts feel relatively smaller

“For a wealthy donor, asking for the same gift from assets (where it constitutes a tiny share) rather than from income (where it constitutes a much larger share) may reduce the relative perception of financial loss.”

Asset gifts remind us of our wealth

Shoppers entering Broadway Market in Cambridge, MA: Would you like to participate in an experiment and receive this free chocolate bar?

Randomly assigned to answer questions

What’s in your wallet/purse? Cash? Credit cards? ...

Do you own stocks? Bonds? Certificates of deposit? ...

Spent 36% more

People who feel wealthy act charitably

Relative comparisons change this feeling. Making college students feel richer by having them report their savings on a scale ranging from $0 to $500 rather than $0 to $50,000 increased subsequent donations. Herzenstein, M., & Small, D. (2012). Donating in recessionary times: Resource scarcity, social distance, and charitable giving. ACR North American Advances.
6. Because it makes wealth donation-relevant
Mental accounting

People attach labels to financial assets and then treat them differently.

When a donor makes a gift of a noncash asset, the donation experience can re-categorize that asset class as appropriate for future charitable consideration.
Labeling assets as donation relevant

Expanding the total number of budget categories for which a particular charitable donation was arguably relevant increased donations.

7. Because people are more generous with appreciated assets
Irregular unearned gains – like appreciated assets – generate more giving

People are more likely to spend irregular unearned gains (vs. regular earned income) on luxury goods in general (O’Curry, 1999) and charitable donations in particular (Reinstein & Reiner, 2012; Konow, 2010).

Framing a donation as an exceptional event removes it from comparison with regular disposable income budget items and increases giving (Sussman, Sharma, & Alter, 2015)

Reminders of cash promote independence and exchange motives, reducing willingness to help and to make donations.

In contrast, gifts of objects are common in social relationships and emphasize communal norms rather than self-interested exchange relationships and exchange norms.

8. Because it changes the fundraiser relationship
Fundraiser technical sophistication

- Organizations promoting and receiving non-cash gifts, especially complex gifts, are more likely to develop technically-skilled fundraisers
- This greater level of financial knowledge changes the relationship from "asking" to "advising" and this leads to long-term fundraising growth
- bit.ly/TexasTechProfessor
Reflect real “donor-centeredness”

- Nonprofits promoting non-cash gifts are willing to increase their hassle (*cash is easier for the charity*) to benefit the donor (*gifts of appreciated assets are cheaper for the donor*)
- Action, not just talk
Appreciated asset gifts are objectively cheaper.

Donors can give more at the same net cost.
Appreciated asset gifts are objectively cheaper.

- Tax deduction only
- Tax deduction + Avoid capital gains tax
Asset gifts are cheaper for itemizers

- **$100k Cash**
  - Nonprofit Income tax deduction ($100,000 x 37%) $37,000
  - Costs $63,000

- **$100k Stock**
  - Nonprofit Avoid capital gains ($90,000 x 23.8%) $21,240
  - Costs $41,760
9. Because if you don’t, someone else won’t – at least not how you want it

- Financial advisors are compensated based on assets under management (AUM).
- AUM increases with charitable instruments that do not deliver benefit to charities for a very long time.
- Donor advised funds, private foundations, and charitable remainder trusts that pay to them increase AUM.
10. Because it drives long-term fundraising growth.

How can we raise these gifts now? (simple version)
Crisis is the time to show support

- A social/friendship/family relationship encourages sharing
- A transactional/market/exchange relationship does not
- When you might be in trouble, a good friend is one who reaches out to help
- Ideally, the first contact with donors in a time such as this should begin with concern
“The family is doing well. We’ve just had a lot of enforced family togetherness.

I’ve still been busy for work, mostly talking to people about how to give smarter with all this market volatility and the new tax benefits. So, it hasn’t slowed down.”

...mostly working with the leadership trying to plan how to rebuild after taking the hit from the season being cancelled.
Crisis Creates Opportunities for Donor Heroism

- During a fire, heroism is limited to rescuing people or putting the fire out
- But after the fire, heroism will be about the choice to rebuild
- Some nonprofits will never recover from this hit
- Some will rebuild stronger
- The difference will depend on donor heroism. When the time is right, give your donors the chance to be heroes!
One-time special requests work well, but be careful with a crisis

- In fundraising experiments, people are more willing to donate in response to a special, one-time need than for ongoing needs.

- However, it is important in such appeals to identify the crisis as a crisis for beneficiaries or for the cause, not an organizational crisis.

Use planned gifts and your plan B

- If a donor needs to back away from a commitment or feels that a gift today is too daunting, consider a planned gift as a “plan B”
- Planned giving opportunities can help “lean into” this uncertainty
- Legacy gifts are revocable, can vary with ups and downs as a percentage of the estate, and take place after we no longer need the money
- In the U.S., irrevocable planned gifts can also help with financial uncertainty
“I certainly understand your concerns, I know others in your same situation who have decided to move their commitment into an estate gift for now. This provides flexibility with no upfront cost. There are even ways to do it that provide tax benefits. Would you be interested in learning more about these options?”

https://lawreview.law.ucdavis.edu
So, what’s new at Texas Tech?

1. … new coach …
2. … new building …
3. Oh, and Mary Smith did a neat thing. Did you know Mary? She graduated two years before you…
   No? Well, Mary spent her career helping other people get their finances in order. She recently signed a new will that one day will endow a permanent scholarship for our financial planning students.
A simple way to ask from the big bucket...
No need to change your portfolio!

What predicts who will donate noncash assets?

1. High Income
2. High Education
3. Age 65+

No significant differences for gender, other age distinctions, marriage, childlessness, African-American, Caucasian, Asian
1. Giving cash to education was 2x more responsive to tax price than giving cash to religion.

2. Giving stocks, bonds, or mutual funds to any charity was 10x more responsive to tax price than giving cash to education.
How to talk about gifts of assets
Should you mention tax benefits?
Social Desirability Bias

People report socially-approved motivations

Other motivations must be tested, not self-reported
Avoid capital gains tax by making a gift of stocks or bonds to a charity.

Make a gift of stocks or bonds to charity.

Accepting noncash gifts is safer today

- Using DAFs that accept any asset type
- Using new instruments like the single-asset LLC
How can we raise these gifts now? (complex version)
$1MM in standard IRA (withdraws are taxable)

Roth Conversion

$1MM in Roth IRA (withdraws are tax free and no owner RMD)

Conversion creates $1MM in immediate taxable income

Accelerating a multi-year pledge by writing the check now can fit with a Roth conversion.

This year only, donors can eliminate 100% of income with gifts of cash to an operating public charity.
Charitable Gift Annuities

The hot new item?
Payments are a fixed obligation of the charity, regardless of market events.
Example donor ages & rates

July 2020, American Council on Gift Annuities

I want income that won’t change (CRUT or PIF) or run out (CRAT)
Large charitable gift annuity use increased following market volatility

A charitable remainder annuity trust backed by donor’s initial investment

A charitable gift annuity backed by all assets of a large charitable institution

Yale University

American Cancer Society

American Red Cross
“I certainly understand your concerns. I know others like you who have decided instead to make a gift that gives them lifetime income. With interest rates being so low and the market being so volatile, many people like the fixed payments coming from a charitable gift annuity. Would you like to learn more about this?”
“I certainly understand your concerns. Another donor was in your same situation and she decided to protect against this volatility by making the gift in two stages. First, she made a gift that gave her annual payments for life. If things go downhill, she has this income. But, if everything turns around and she ends up not needing the extra money, then she could donate those future payments as a second gift.”

A charitable gift annuity as a two-stage gift
If funded with cash, the income tax deduction can eliminate 100% of income in 2020. (Connect with me on LinkedIn for the full paper on this.)

If the donor can’t use charitable tax deductions, lower interest rates are better for CGAs because a larger share of the annual payments will be considered as tax-free return of the original investment.
Where new CGA gifts grew +50% or more 2013-2017

Share of CGA gifts from cash rose by 4%
Avg contract size fell by $47,000
Retained Life Estates & Remainder Interests in Homes and Farms
A remainder interest gives the right to own the property after a set time or after the death of a person.
Unlike a will, a remainder interest is not revocable, and can even be sold.
A deductible remainder interest in farmland or a personal residence must be transferred by deed, not by trust or contract.
Charitable deduction for remainder interest deed with retained life estate in $1,000,000 of farmland by age 55 donor

11.6% (May 89)  $122,350

0.4% (Sept 20)  $903,710

You can use the tax savings to buy life insurance for heirs who weren’t going to farm anyway.
Leaving land to charity by will

- Revocable
- $0 tax deduction
- Impacts charity after death

Leaving land to charity by remainder deed

- Irrevocable
- Immediate income tax deduction
- Impacts charity after death or immediately if charity sells remainder interest
- Immediately increases cash assets available for income producing investments
Gifts of a remainder interest with retained life estate in the donor’s personal residences can also be deducted.
Includes second homes, vacation homes, even a boat with bathroom, cooking, and sleeping facilities, if used by the donor as a residence.
No Required Minimum Distributions for 2020, but you can still give up to $100,000 with QCDs!

- IRAs or IRA rollovers only; no 401(k), 403(b), SEP, SIMPLE, pension or profit sharing plans
- Participant 70 ½ or older
- No private foundations, donor advised funds, charitable trusts, or charitable gift annuities
- $0 income
- $0 deduction
- $100,000 per person maximum
- $10,000
Non-Grantor Charitable Lead Trust

Donor gives money from which charity receives payments, with remaining amount going to family members.
Using non-grantor Charitable Lead Trusts to cut gift and estate taxes
Gift taxes are paid on the present value of the **PROJECTED** remainder going to the heirs.

Gift taxes are not paid on the **ACTUAL** remainder that eventually goes to the heirs.
If the **ACTUAL** amount is higher than the **PROJECTED** amount, this part goes to heirs tax free.
The **PROJECTED** remainder assumes investment growth at the **INITIAL** §7520 rate.

If actual growth is greater than the §7520 rate, the **ACTUAL** remainder will be greater than projected.
The **PROJECTED** remainder of $10MM at 0.4% §7520 with $521,266/year charitable payments for 20 years is $0, resulting in $0 gift taxation.

If actual growth is 8%, the **ACTUAL** remainder will be $22,755,415.
If the charitable gift (or bequest) was already planned, the zeroed-out CLAT (or zeroed-out testamentary CLAT) provides a no cost chance at tax-free transfers to family.
Non-Grantor CLT pays income taxes but deducts charitable distributions usually without income limitations.

(Non-Grantor) CLT taxed on income

Initial Transfer

Payments for Life/Years

Charitable deductions to CLT with no income limitations

Anything Left Over

Donor’s heirs

Charity

CLT can also pay out any income in excess of annuity or unitrust amount
Grantor CLT

Donor immediately deducts present value of all future projected payments to charity.
Funding $10,000/year gifts through a 20-year grantor CLAT (returning remainder to donor) creates an immediate deduction of

• $191,840 at 0.4% §7520 rate

• $98,181 at 8% §7520 rate
