Kim Stewart is a nonprofit business and leadership coach and consultant, dedicated to making the world a better place by supporting the nonprofit sector. Having spent over 30-years as an organizational leader serving agencies of all sizes, Kim has a huge passion for this industry. In 2020, she decided to expand her reach and shifted from a staff role - serving one organization - to serving multiple agencies through her consulting.

Today Kim offers a wide variety of coaching, consulting, training and facilitation services. Her ultimate goal is to help organizations develop powerful, strategic governance boards that will produce long-lasting impact and success. Kim helps leaders get their business to a place where the mission/vision, values, goals, and every single staff and volunteer is aligned and moving in the same direction. By simplifying, aligning, and calming the chaos, leaders find more time to focus on what's important to them. With intentional board development, skills building, structure and strategy, Kim believes that any organization can help save the world!

Kim and her family are originally from Iowa and now split time between Iowa and Colorado. They love being active in the outdoors, live music, art, reading and more. Her family includes two delightful teenagers ~ Libby and Callahan. Serving her community is important to Kim. She gives back as a Board member with Tri-Lakes Cares, a Board member for the Festival of Lights, an Ambassador for the Tri-Lakes Chamber, a Program Committee member for the Southern Colorado Women’s Chamber of Commerce, and as 2022 Chair for Accolades for the Women’s Chamber.
