Chanda Hinton is the Founder and Executive Director of the Chanda Center for Health. After sustaining a spinal cord injury at age nine, Chanda experienced years of chronic pain and declining health before discovering the transformative impact of integrative therapies. Inspired by her own recovery, she made it her mission to ensure people living with long-term physical disabilities have access to holistic, affordable care. In 2005, she co-founded the Chanda Plan Foundation, which evolved into the Chanda Center for Health in 2017. Today, Chanda leads statewide efforts to improve health outcomes and expand access to disability-centered healthcare across Colorado.
