November 2021

Giving Tuesday at AGU

Please consider supporting the Education Section on Giving Tuesday this year. Your donations to the Section, and to the Honor an Educator Fund, are used to provide travel and child care support to members who attend Fall Meeting, including special support for K-12 teachers. AGU provides incentive funds to each Section based on the percentage of primary members who contribute $50 or more. If just 15 people reading this message contribute to our Section, we can receive up to an additional $3000 directly from AGU. That's a lot of much-needed award opportunities! Please join us today.

Please click here to learn more about the Honor an Educator Fund and to donate to the Education Section. We appreciate your support!

Fall Meeting 2021

AGU's 2021 Fall Meeting will take place in New Orleans, LA, and online everywhere from 13-17 December! Register now and join us for a week of collaboration, networking and meaningful conversations. This solutions-oriented experience intends to maximize its accessibility for participants by providing a hybrid delivery of content from guest speakers, researchers and community members from all aspects of the Earth and space sciences!

Have questions? Want to get involved? Please click here to learn more about Fall Meeting, and click here to register!
Honoring Excellence: Stout Lecture & Award

The Education Section would like to extend congratulations to USC’s Dr. Emily Cooperdock, the first ever recipient of the Dorothy LaLonde Stout Lecture and Award. Dr. Cooperdock is recognized for her commitment to integrating diversity, equity and inclusion into her exemplary educational and research pursuits. These pillars of the scientific community were embodied in the work of esteemed educator, leader and scientist Dorothy LaLonde Stout, for whom the award was named. Dr. Cooperdock will present the Stout Lecture at the AGU 2021 Fall Meeting on 15 December at 12:45 (Central Time) in the Convention Center, La Nouvelle Orleans C—we hope to see you there!

Fall Meeting 2021 Section Networking Event and Social

Please join the Executive Committee, members and friends of the Education Section on Tuesday, 14 December in New Orleans. From 6:00-6:30 pm, we will share updates and plans for the Section (and we welcome your input!) in the Convention Center (rooms 267-268), and then segue into an outdoor reception from 6:30-8:00 pm on the Live Oak Porch of the Convention Center. The business meeting will be open to virtual participants—details coming soon. We look forward to seeing you there!
Fall Meeting 2021 Student and Early Career Events

Join us at the 2021 Fall Meeting for a week jam-packed with events and networking opportunities! AGU’s Education Section has 49 sessions for you to choose from, sorted into nine thematic categories for your browsing convenience. From climate literacy to education technology, there’s something for everyone! The Student & Early Career Scientist Conference Virtual Networking Kickoff is scheduled for Friday, 10 December––don’t miss out!

Please click here to view the full itinerary of AGU events, and click here to view the list of Education Section sessions to be featured in the 2021 Fall Meeting.

Sci & Tell

Science is most effectively taught when students are able to connect to it on a personal level. AGU’s Sci & Tell initiative provides first-person stories in the form of interviews, podcast episodes, and illustrations to equip learners (and educators) with a broader range of resources to explore scientific topics. Science is more than experiments and data tables—it’s individuals and their culture, the curiosity of exploration and a desire to investigate the world around us!

Click here to explore the Sci & Tell site!
