“DRIVER”

When most people hear that word, they don’t think of an influential factor.

AGU SHARING SCIENCE

Helping you share science effectively.
“Communicating science in a meaningful, inspirational and relatable way is a passion of mine, and is one of the greatest contributions I can make for the greater good of society and our planet.”

—Alison Rockwell, member of AGU’s Sharing Science community

Do you want to:

• Inspire the public & next generation of scientists?
• Encourage support for investment in research?
• Raise the profile of your work?

AGU’s Sharing Science program gives you tools, opportunities, and support to effectively communicate science to many audiences, including:

• Journalists
• Policymakers
• Public groups
• Educators & students
