

GEOspire project

for scientists

Develop connections between AGU* scientists and local classrooms, including teachers/students

- ▶ Every year, scientists from around the world converge at the annual Fall Meeting of the American Geophysical Union. Over 25 000 attendees share and discuss the latest breakthroughs in science, technology, and policy.
- ▶ Students will have the opportunity to learn more about current science topics and why they matter to their community and to the world.
- ▶ The Geospire program will (remotely) connect scientists attending AGU Fall Meeting 2021 and classrooms across the New Orleans region.
- ▶ During the Fall Meeting, participating educators will be invited to attend the event

HOW TO PARTICIPATE?

Inspiring the next generation of leaders

for scientists:

- 1 Register as a volunteer scientist using the form found here:

<https://tinyurl.com/scientistgeospire>

- 2 Schedule 2 live virtual sessions (November and December) with participating schools in the New Orleans region.

- 3 Attend AGU Fall Meeting (December 2021).

Please contact us for more information. Covid-19 restrictions may lead to changes to the program. The views and opinions expressed by participants do not necessarily reflect the policy or positions of AGU or the Biogeosciences Committee.
