GEC Centennial Webinars

Jonathan Overpeck - May 9, 2019 1-2pm EDT

Title: Drought and Water Security in the West: Highlighting the Roles of Scientists in the 21st century

Dr. Overpeck is Samuel A. Graham Dean and William B. Stapp Collegiate Professor of Environmental Education School for Environment and Sustainability, University of Michigan. He was elected AGU Fellow in 2015.

Sonia Seneviratne - May 21, 2019 11-noon EDT

Title: Climate Extremes in Present and Future: How Can We Avoid the Worst?

Dr. Seneviratne is a Professor in the Institute for Atmosphere and Climate Science at ETH Zurich. She was elected AGU Fellow in 2013.

Nominations invited for GEC Named Lectures and Awards:

The GEC Awards Committee is requesting nominations from GEC members for the Bert Bolin Lecture, Stephen Schneider Lecture and Tyndall History of Global Environmental Change Lecture. Note that lecture nominations are not formally submitted online through the AGU Nomination Submission Site but are to be sent directly to the Awards Committee Chair, Dr. Philip Mote (philip.mote@oregonstate.edu). Please include a brief statement with your rationale for the nomination including the individual's contributions in the area of study pertinent to the work of the person honored by the lecture.

In addition, GEC honors three individuals, one with the GEC Early Career Award, one with The Piers J. Sellers Mid-Career Award and one with the Bert Bolin Global Environmental Change Award. The Bert Bolin Lecture is given in conjunction with the Bert Bolin Global Environmental Change Award. Early career scientists must have received their Ph.D. within the last 10 years. The nominations for these three awards must be submitted through the [AGU Nomination Submission Site](#). If you have any questions regarding your submissions, please forward them to the GEC canvassing

committee chair, Dr. Rong Fu (rfu@atmos.ucla.edu).

If you have questions regarding GEC Lectures or need general GEC information, please contact Philip Mote (philip.mote@oregonstate.edu). The deadline for the receipt of both sets of nominations is **April 15, 2019**, although we would appreciate receiving them earlier if possible.
