## Earth and Planetary Surface Processes

Happy New Year!

It was great to catch up with so many of you in person in San Francisco last month and we hope the new year is off to a good start for everyone! We have several EPSP announcements for you to kick off the year.

### **AGU23 Continues With Online Poster Sessions Next Week!**

We have four online EPSP poster sessions next week on:

- Monday, 22 January, 8:00 - 9:30 AM Pacific AND 10:00 - 11:30 AM Pacific
- Tuesday, 23 January, 10:00 - 11:30 AM Pacific
- Wednesday, 24 January, 10:00 - 11:30 AM Pacific

If you registered for AGU23 you're able to attend and we would love to see all of you there.

### **AGU23 In-Person Sessions Are Available Online**

If you registered for AGU23 but missed a session (or want to re-watch a talk), all the oral sessions are available online through March 2024. To access the recorded talks, log onto the online meeting platform [here](#). Note that you'll have to navigate to the appropriate session, and then click the link to watch the recording of the entire session (you can fast forward through the recording if you're only interested in a specific talk).

## It's Not Too Late To Sign Up To Be An OSPA Reviewer (All Reviews Due on 31 January)

Thanks to everyone who participated in the [Outstanding Student Presentation Awards program](#)! We had at least one judge for more than 99% of the presentations, which is great; however, 43% of the judges have not entered their evaluations yet (OSPA evaluations are due on 31 January, [please see instructions here](#)). Please enter your evaluation if you have not done so. **Also - you can still sign up to review OSPA presentations!** Presentations with less than 3 judges can benefit from additional judges, so please sign up to review these presentations (see instructions [here](#), posters are available through iPoster and talks are recorded). Note that you must be registered for AGU23 to be eligible to review.

## Volunteer With EPSP

As we mentioned at AGU23, we have several volunteer openings across almost all our [EPSP Committees](#). If you're interested in volunteering with EPSP, please e-mail [Kimberly Hill](#) (EPSP President), [Suzanne Anderson](#) (EPSP President-elect) or [Joel Scheingross](#) (EPSP Secretary).

## AGU-Wide Updates

AGU is excited to implement a series of updates to the Union Medals, Awards, and Prizes Program in 2024. The updates are part of a comprehensive effort to improve how we find, select and celebrate achievement in the Earth and space sciences, a culmination of nearly two years of hard work by the Honors & Recognition Committee and AGU staff. To ensure that the AGU community is well-informed prior to the opening of the 2024 Honors nomination cycle on 17 January, members of AGU's Honors and Recognition Committee have recorded an information session where they discuss the updates that will go into effect in 2024. We encourage you to visit our information page [view that recording](#).

## Nominations Needed for the EPSP Early Career Spotlight

Our Student Committee runs an [Early Career Spotlight](#) designed to highlight folks doing EPSP-relevant work. We pick researchers to highlight based on a nomination process and we're always in need of new nominations. If you know an early career researcher who deserves to have their work highlighted, [please nominate them using this form](#) (self-nominations are also allowed and encouraged!).

## Stay Connected With EPSP

As a reminder, in addition to this newsletter, we make many EPSP-related announcements on our Twitter account [@AGU\\_EPSP](#), as well via the [Gilbert Club](#) and [IAG Geomorph-List \(GEOMORPH-L\)](#) community list-servs (which are both great ways to stay up to date with the broader geomorph community as well).

**AGU is a global community supporting more than half a million advocates and professionals in the Earth and space sciences.**
