- **NEW SESSION:** Friday, July 21, 4:00 – 5:30 pm
  8.9–Dual Enrollment: What Happens When High School Students With Accommodations Also Enroll in College Courses?
  *Maria Schiano, County College of Morris*
  *Anne Lazenby, University of Alaska, Anchorage*
  *Jenifer Montag, Marion Technical College*

  Dual enrollment programs that allow qualified high school students to take college courses for credit while still in high school is a rapidly growing segment of college enrollment, but when students with disabilities participate, there is often confusion. Which law applies: IDEA or ADA? How do you determine reasonableness? Who implements and pays for the accommodations? Colleges must manage the expectations of students; negotiate with the high school, parents, and students; and keep roles clear among all of the entities; all while ensuring the students get appropriate services and supports. This panel will include disability office staff at the community college and four year institutions who have extensive experience with dual enrollment programs.

  **Room:** B117

Room Changes
