LEARNING OPPORTUNITIES	UNIQUE PROGRAMS & ADDITIONAL INFO
<p>Areas available for observation and learning include:</p> <p>CT scan; Remote Scanning for MRI and CT for the health system.</p>	<p>Successful implementation of remote scanning launched June 2024 through dedicated, on-site command centers, where an expert technologist can remotely assist with up to three scans simultaneously, ensuring efficiency, precision, and enhanced patient care. Located in Newburgh, Indiana, Deaconess Gateway serves as a state-of-the-art acute care hospital, offering a full spectrum of medical services, including advanced surgical care, cardiovascular services, oncology, orthopedics, women's health, and comprehensive imaging and diagnostic capabilities. 2 As part of the Deaconess Health System, which includes multiple hospitals, specialty centers, and outpatient facilities, Deaconess Gateway benefits from a network of highly skilled physicians, cutting-edge technology, and a commitment to patient-centered care. The hospital continues to expand with innovations such as a conjoined CT and IR procedural suite, as well as remote scanning capabilities, ensuring high-quality care for patients across the region.</p>
