LEARNING OPPORTUNITIES	UNIQUE PROGRAMS & ADDITIONAL INFO
Areas available for observation and learning include: Bone densitometry (DEXA); Education — R.T. program clinical site; Nuclear medicine; Radiologist relationships; Breast center; CT scan Diagnostic Radiology Education — full R.T. program; Equipment purchasing; RIS; Imaging department(s) in other facilities; PET; PET/CT Radiology Assistants; Radiology Practitioner Assistants; Satellite; Ultrasound	Implementation of Imaging Time Out to be completed for every patient, every time to reduce errors related to wrong patient, exam, laterality, protocol. This is also combined with contrast barcode scanning to hard wire medication safety. At the start of the pandemic in spring of 2020, every level of executive leadership for Imaging services and the Department of Radiology turned over. One of the great successes we have had is with building an education, quality and safety structure specific to Imaging Services. Our quality team is made up of modality specific quality specialists who are truly experts in their modalities. We also have Imaging Educators that have just started and will foster enhanced learning and training and standardization across our workflows.
