Trying to do more but it’s a lot to manage

PROVIDE A BRIEF DESCRIPTION OF THE PROGRAM:

Program summary: Mentorship Program
The Mentorship Program is a forum for cross-generational interaction that seeks to build a network for established and emerging professionals beyond the office environment; promote personal and professional development in the areas of leadership, mentoring, and relationship building; and provide supplemental tools for emerging professionals to fulfill the requirements for licensure.

The program is open to architectural practitioners of all levels and facilitates mentor groups that meet 5 times a year. Group meetings can be casual or structured, depending on the dynamic of the individual groups, which each comprises at least one SP (seasoned professional), two MPs (mid-level professionals), and two EPs (emerging professionals).

DIENCE (include size and demographic)

Group of 50 -100 (??) members including licensed and unlicensed professionals with a varied amount of work experience, from recently graduated to season professionals.

HOW DOES YOUR PROGRAM ADDRESS THE CORE MEMBER SERVICE? (core member services are: Member Communications, Education, Advocacy, Public Outreach, Governance, Finance & Operations, and Membership)

AIASF Mentorship is advancing the profession of architecture by connecting professionals through a speed match to pair mentors and mentees. We support the collaboration and the exchange of knowledge between mixed groups from all backgrounds and experience levels through various events we host through the year to encourage groups to stay together. Overarching goals for this year is to increase the AIASF membership base by fostering the engagement between all levels of professionals. This engagement from various levels will in-turn contribute to strengthening the overall knowledge of the individuals by access to multiple sources outside of one’s office. The group also strives to advocate for equity through recruiting a diverse group of attendees.
HOW (list the steps or process to implement this program, be as specific as possible. Provide sample agenda of applicable)

Annual Party

Group Kick Off

Speedmatch

WHAT ARE THE LEARNING OBJECTIVES? (provide sample learning objectives that can be used as is or slightly modified to cover program content)
