All presenters and interested attendees may now **REGISTER** for the conference at the website below.

We are looking for **20 minute presentations** in areas of interest to the aerospace community. Topics can be technical in nature or focus on diversity, equity, and inclusion (DEI).

**Awards** will be given to exceptional technical presentations.

Featuring Keynote Speaker,  
Chris "Disco" DeMay  
Chris leads applied research and advanced technology development for the Office of the Secretary of Defense, US Air Force, and Defense Advanced Research Projects Agency programs applying autonomy and manned-unmanned teaming to air combat. Prior to joining APL, he served for over 21 years in the US Navy as a naval aviator.

**Registration is required.**

**One-page abstracts** are requested from prospective presenters. Abstract submission will be available after registration.

Please register on our website at  
[aiaaypse.com](http://aiaaypse.com)

**Abstract Deadline: Oct 28, 2022**  
**Registration Deadline: Nov 11, 2022**

Please note, proceedings of the conference are not published; therefore, papers presented elsewhere, or planned to be presented elsewhere, are acceptable. All abstracts will be released to conference attendees. The conference sessions are unclassified and open to the public; authors whose presentations are the result of sponsored research are requested to obtain clearance from their sponsors or organization. Complete papers are not required.
