BRIEF
The **SIG SOURCING** annual event brings together IS scholars, teachers, and practitioners who share interests in studying sourcing-related topics.

We will start from a **keynote** by Peter Schumacher (President, CEO, and Founder - Value Leadership Group) about most recent technology trends and how these have affected the IS sourcing practice.

This will be followed by the **editorial panel** of highly experienced IS scholars (Professors Rajiv Sabherval, Anand Gopal and Ilan Oshri) who will share their experience in managing sourcing-related papers submitted to the top IS journals.

We will also have the opportunity to learn about the **publication journey** of one of the most recent sourcing papers published in an FT50 outlet (JMIS) by a junior IS scholar – Dr Oliver Krancher.
