

Introduction

The purpose of this document is to summarize the most important details needed by your ALA organization and its leadership team to deposit your organizational documents into the ALA Institutional Repository (ALAIR). The usefulness of ALAIR to its ALA constituencies and other repository users depends entirely upon the quality of the data you submit. These guidelines not only walk you through the process of submitting to ALAIR, but also help you to describe the materials so that ALAIR users understand the context of your submissions and their relationship to other ALAIR materials. The ALAIR website does timeout after less than an hour of idle time. You may need to login again if you take a break before completing your submission.

Explanation of submission form (?)

After an ALA Archives staff person provides you with a username and password for ALAIR, , you will login at alair.ala.org. After logging in locate the submission link on the left side of the page.

Commented [1]: Make note somehow that as fields are added to the submission page, these instructions need to be updated.

Commented [2]: FYI, I added a border of 1 pt to each screen shot. I think it helps the image to pop out from the page. Consider adding a border if new screenshots are inserted.

Commented [3]: +1

After clicking “Submissions” click “start a new submission” on the following page.

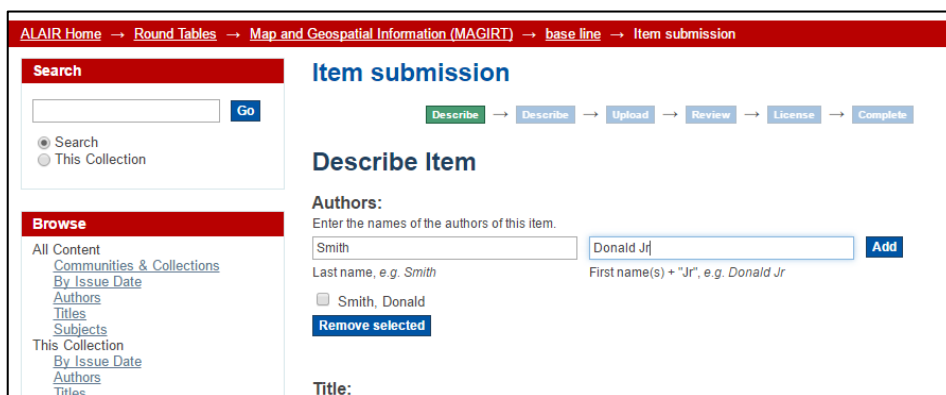

You should now see a drop down box which shows the organizations in which you have been granted permission to submit organizational documents. Be careful to select the right collection

for your organization. For this example we will select “Round Tables > MAGIRT > base line,” a collection that includes issues of the MAGIRT publication *base line*.

The screenshot shows the ALAIR American Library Association Institutional Repository website. The top navigation bar includes a 'Profile' link. Below the header, a red banner contains the text 'ALAIR Home → Item submission'. The main content area is divided into two columns. The left column has a 'Search' section with a text input field and a 'Go' button, and a 'Browse' section with a list of links: 'All Content', 'Communities & Collections', 'By Issue Date', 'Authors', 'Titles', and 'Subjects'. The right column is titled 'Item submission' and 'Select a collection'. It features a 'Collection:' label and a dropdown menu. The dropdown menu is open, showing a list of collections. The selected collection is 'Round Tables > Map and Geospatial Information (MAGIRT) > base line', which is highlighted in blue. Other visible options in the dropdown include 'Select a collection...', 'Select a collection...', 'Round Tables > Map and Geospatial Information (MAGIRT) > Meeting Minutes and Agendas', and 'Round Tables > Map and Geospatial Information (MAGIRT) > base line'.

After selecting your collection, you should now see the start of the submission form. On this form you will be asked to provide descriptive information about the item you are submitting, such as Author(s), Title, Date of Issue, Publisher, Citation, Type, Language. T If you would like to include more than one author or other repeatable fields, type in the first author’s name and then select the blue add box on the right side of the page.

The screenshot shows the ALAIR Item submission page after selecting a collection. The top navigation bar includes a 'Profile' link. Below the header, a red banner contains the text 'ALAIR Home → Round Tables → Map and Geospatial Information (MAGIRT) → base line → Item submission'. The main content area is divided into two columns. The left column has a 'Search' section with a text input field and a 'Go' button, and a 'Browse' section with a list of links: 'All Content', 'Communities & Collections', 'By Issue Date', 'Authors', 'Titles', and 'Subjects'. The right column is titled 'Item submission' and 'Describe Item'. It features a progress bar with steps: 'Describe' (highlighted in green), 'Describe', 'Upload', 'Review', 'License', and 'Complete'. Below the progress bar, the 'Describe Item' section is visible. It includes a label 'Authors:' and a text input field for 'Enter the names of the authors of this item.' The input field contains 'Smith'. To the right of the input field is a blue 'Add' button. Below the input field, there is a label 'Last name, e.g. Smith' and a text input field for 'First name(s) + "Jr", e.g. Donald Jr'. The input field contains 'Donald Jr'. Below the input field, there is a checkbox labeled 'Smith, Donald' and a blue 'Remove selected' button. The 'Title:' label is visible at the bottom of the form.

What data to put where in the submission form

In this example, we will describe the following *base line* document. However not every possible field will be detailed in this cliff notes document. For a full description, review the proposed

After reviewing the above example, an individual author is not apparent. But in section 6.1 of the proposed [2016 MAGIRT Application Profile](#), an author may be “a person, organization, or service.” For this document, we will use MAGIRT as the organizational author.

In this case, the title of our document above is *base line*. Input this title into the title section on the first ALAIR submission page. Next we will need to find the date of issue and the publisher. The date of issue is listed on the cover page, but the publisher is not. After the cover the *base line* publisher is described as ALA.

base line is an official publication of the American Library Association's Map and Geospatial Information Round Table (MAGIRT). The purpose of *base line* is to provide current information on cartographic materials, other publications of interest to map and geography librarians, meetings, related governmental activities, and map librarianship. It is a medium of communication for members of MAGIRT and information of interest is welcome. The opinions expressed by contributors are their own and do not necessarily represent those of the American Library Association and MAGIRT. Contributions should be sent to the appropriate editor listed below.

Once you feel have sufficiently described information on the first submission page, click next at the bottom of the page to continue to describe your organizational document.

Enter the series and number assigned to this item by your community.

37 2 **Add**

Series Name Report or paper No.

Identifiers:
If the item has any identification numbers or codes associated with it, please enter the types and the actual numbers or codes.

ISSN 1943-6548 **Add**

Type:
Select the type(s) of content of the item. To select more than one value in the list, you may have to hold down the "CTRL" or "Shift" key.

Image
Image, 3-D
Map
Meeting Minutes
Newsletter
Musical Score

Language:
Select the language of the main content of the item. If the language does not appear in the list, please select 'Other'. If the content does not really have a language (for example, if it is a dataset or an image) please select 'N/A'.

N/A

Save & Exit **Next >**

Also available at the bottom of each submission page is a “Save and Exit” option. This option does should save data on the current page you are working, so you may resume your submission after you return to ALAIR.

To return to an unfinished submission, these are located by clicking the submissions link after you’ve logged in to ALAIR, after which you will see a list of unfinished submissions.

Page 2

On the second of five pages of options available for your ALAIR submission, we have the option to select subject keywords as well as some others options, not all of these options will we be able to use for our *base line* submission. For example we do not have an abstract available for each issue of the MAGIRT newsletter. We will leave this field blank. For the “Subject Keyword” section of the submission page, attempt to Describe content of the resource. Input one keyword or subject term and then click blue Add button. (In spreadsheet for batch depositing, separate each subject term/keywords with a semicolon then space.) If no terms in the Library of Congress Subject Headings (LCSH), for topical terms, or in the Library of Congress Name Authority File (LCNAF), for persons and entities are not possible, use a locally maintained list of preferred keywords.

officially submitted and available to the public, so you will have a chance to review your submission after uploading it.

Page 3

The screenshot shows a web browser window titled "Item submission - Google Chrome". The address bar displays the URL <https://alair.ala.org/handle/11213/2080/subr>. The page content is titled "Upload File(s)" and includes the following sections:

- File:** A section with instructions: "Please enter the full path of the file on your computer corresponding to your item. If you click 'Browse...', a new window will allow you to select the file from your computer." Below this is a "Choose File" button and the text "No file chosen".
- File Description:** A section with instructions: "Optionally, provide a brief description of the file, for example 'Main article', or 'Experiment data readings'." Below this is a text input field.
- Embargo until specific date:** A section with instructions: "The first day from which access is allowed. Accepted format: yyyy, yyyy-mm, yyyy-mm-dd". Below this is a text input field.
- Embargo reason:** A section with instructions: "The reason for the embargo, typically for internal use only. Optional." Below this is a text input field.

At the bottom of the form, there is a blue button labeled "Upload file & add another". Below this button are three navigation links: "< Previous", "Save & Exit", and "Next >".

Formatting the data (e.g., capitalization, etc.)

When inputting data into ALAIR, formatting data correctly and consistently is crucial. Although the submission form does not have space to adequately describe the format needed for your data, some data format guidance is available in the proposed [2016 MAGIRT Application Profile](#). In the application profile you will find an example of how to format the title of a your periodical.

Information about how/where to find the ALAIR help that is already there

If you have difficulty submitting materials to ALAIR, you should first contact your ALA division representative. In the least your ALA representative should be able to direct your concern to the appropriate ALAIR support staff. If you are not sure who your ALA division rep is, contact your division or round table chair and they will direct you to your ALA representative.
