4. Executive Board report from Alex Rivera

   Alex shared highlights from the Executive Board’s January and February 2023 meetings

   https://docs.google.com/document/d/1NLSRcVvAVTBw7rVJNxlBlwrwoTR58cvdxWcXFQUThKA/edit?usp=sharing

   The Executive Board meets once a month, awaiting notes from March and April meetings. The primary focus currently is the challenges being experienced in public schools and school libraries, public libraries, and now academic libraries. ALA is creating toolkits, working through state chapters to provide opportunities for training on handling these types of challenges, etc.

   ALA is in the black, thanks to some grant funding, but that’s not sustainable. Need to shore up memberships. Publishing is improving, continuing education environment improving as well. Funding is stabilizing. Looking at improving data, creating a data warehouse to be a pillar in the ALA strategy. Looking to do a Diversity Counts report (first in almost 10 years).

   Alex invited questions or issues to be raised by the group.

   Susan Mythen is in Florida. As the dean of a college library, was asked to report on everything we’re doing with DEI. Reached out to ALA OIF for support. Not much in response, advised to reach out to state library association. Met with other Florida Deans and Directors and found that the responses to the state from college library peers were greatly varied. It would have been nice to have guidance so they could have responded in a similar way.

   Alex suggested ACRL should be helping to lead that. Offered link to a Webinar on Anti-DEI Legislative Dynamics: https://us06web.zoom.us/webinar/register/
Also shared a link to a web page: “Honesty for Ohio Education” on a state bill: https://www.honestyforohioeducation.org/sb-83.html#:~:text=The%20bill%20bans%20mandatory%20DEI,%2C%20tenure%2C%20and%20state%20funding

Because so much is happening with school/public librarians, there haven’t been enough resources directed to academic libraries. Hope there’s programming at ALA Annual Conference.

Looking at dues standardization, trying to minimize the number of categories.

Victor Baeza noted that LIRT dues have conformed to the new standard for a long time so it’s not a big concern for us. Victor noted that he’s been part of state organizations that feel they can’t mention ALA when combatting unfriendly state legislature, because that shuts down conversation.

Alex noted that the Joint Conference of Librarians of Color met in Florida in the winter, and was pressured to leave FL. California is dropping travel restrictions to specific states, because these types of bans are not effective.

Alex urged the group to Look at ALA financials and ask questions. There are tutorials to help you understand them. The ALA Operating Agreement is also moving forward, which will impact the Divisions.

   a. Adult Learners Committee (Stan/Alissa)

   c. Communications (Renee)
i. Proposal on moving to e-newsletter format (using Informz), the newsletter will be sent via email to LIRT members, can also be sent via Connect.

ii. The LIRT Communication Committee proposes that the current .pdf version of the LIRT Newsletter, that goes out via ALA Connect, be moved to the Informz ALA email platform. Using Informz will do a few things; it will provide us with a standard format, allow us to see statistics on # of times the email is opened, and will go out to all current members via the IMS database (not Connect). The LIRT News editor and the Communications committee will work with Danielle Ponton, ALA Liaison, to establish the format of the Informz newsletter and publish it quarterly. The Electronic Resources Manager would continue to make the newsletter available on the LIRT web page.

iii. Still seeking an Editor for the newsletter

iv. Planning to put together a June newsletter including award winners, Top 20

v. The above proposal was approved 😊

vi. Victor noted that the email newsletter will only reach members, and we’ll also post the newsletter online and through ALA Connect. We may be able to determine how many non-LIRT members are reading the newsletter.

In this session, participants will learn how librarians from school, public, special, or academic libraries are incorporating gamification and game-based learning into instruction in the classroom, in programming, and in outreach activities.
