LET YOUR LIGHT KEEP SHINING!

Our busy conference just keeps on being busy! After a quick breakfast and coffee (at least we hope you had time for that!), we were off to the Ryman Hall again this morning for our second General Session. The second registration report was a great bit of news with about 100 more attendees joining us since yesterday. The session was packed with lots of great information, but we're sure you were as enchanted as we all were by our ITE Scholars. Weren't they marvelous (and surprisingly funny)? Dr. Jennifer McGinnis' ARGO presentation was a fascinating glimpse into another country and its customs, and now we know that any money we spend on a massage is justifiable health care! If you know of anyone in your chapter who would be a good candidate for the Leadership Academy, Emily Castillo's presentation should be a reminder to give her that link to apply. Whether you know someone who would be interested in being a mentor or a candidate, please find and share the information, available on the International website. And finally Melissa LaBonge from the Alzheimer's Association gave us renewed energy and information to share with our chapters.

CHART YOUR COURSE - General Conference Announcements for Wednesday, July 15

You have one more chance to get those altruistic gifts Wednesday morning from 7:30 to 8:30. The NER will hold their Memorial Service from 9:00 to 9:50 in Ryman B-1, so please maintain a respectful silence in the area. After that, it's on to the third and last General Session at 10:00 a.m. Picture times were announced at your regional luncheons, so be mindful of being on time! After that, there's the reception at 5:30 and the banquet at 7:00.
