

The American Glaucoma Society Foundation
Supports:

RESEARCH

AGS Research Consortium (ARC) – A program that provides a funding source to support AGS sponsored clinical trial research designed to optimize glaucoma care, and to develop a web portal where de-identified data can be shared with AGS members.

Young Clinician Scientists Awards – Encourages the development of young clinician scientists in glaucoma by providing funding for research projects within the first 5 years after graduation, a time period critical for developing the skills necessary for a research career and establishing a track record of productivity.

Mid-Career Physician Scientists Awards – Provides research funding for investigators between 5 and 20 years after fellowship, to allow mid-career investigators to initiate new research or continue ongoing research.

Mentoring for the Advancement of Physician Scientists (MAPS) – A mentoring program predominant in fulfilling the mission of the AGS, supporting early career glaucoma specialists and scientists by providing tools and resources to further their careers as potential leaders in the science, research and specialty of glaucoma care.

EDUCATION

AGS Core Lecture Series – A comprehensive slide set on the fundamentals of glaucoma pathogenesis, diagnosis, and treatment which may be accessed by all AGS members.

FDA AGS Workshops – Have provided an ideal platform for physicians, researchers and FDA colleagues to develop the regulatory science that guides the advancement and approval of new glaucoma diagnostic technologies and surgical devices.

PATIENT CARE

AGS Cares – A public service program dedicated to providing surgical glaucoma care to uninsured patients through a national network of volunteer glaucoma specialists at no cost to those who qualify.

Together, we can help change lives.

AMERICAN GLAUCOMA SOCIETY FOUNDATION

The mission of the American Glaucoma Society Foundation (AGSF) is to support glaucoma research and education, and to promote excellence in the care of patients with glaucoma.

Who We Are

The American Glaucoma Society Foundation was established in 2011.

The AGSF is a 501(c)(3) not-for-profit organization based in San Francisco, California.

The AGSF's goal is to revolutionize glaucoma care and prevent needless loss of vision for so many individuals worldwide. We understand that all of the stakeholders in our field (physicians, patients, government and industry) play vital roles and that collaboration among us is critical for success.

The foundation is focused on creating and supporting programs that will accelerate the advancement of glaucoma science and its translation into clinically important applications for our patients with glaucoma.

Glaucoma

Sadly, there are many people worldwide living with the threat of impending blindness from glaucoma. As the population ages and growing numbers are afflicted with serious eye diseases, the AGSF's mission becomes increasingly vital.

Make a Difference

You can help us make a difference. Through the reach of the American Glaucoma Society's powerful resources and innovative programs, we provide tangible support to the country's glaucoma specialists and glaucoma researchers who work tirelessly to save their patients' most treasured sense.
