

Arthur L. Schwartz, MD

Dr. Arthur Schwartz is a nationally recognized specialist in glaucoma and cataracts. He has pioneered the use of laser technology in the treatment of glaucoma. Colleagues selected him as one of only sixty-nine glaucoma specialists nationwide to be included in the original publication of Best Doctors in America. He is a charter member of the American Glaucoma Society. In addition to his well-recognized clinical practice, Dr. Schwartz lectures, teaches, and has served as a principal investigator for four glaucoma research studies sponsored by The National Institutes of Health. He is currently the principal investigator in The Washington, DC area for The Ocular Hypertensive Treatment Study Part 3.

Dr. Schwartz is a member of the Alpha Omega Alpha Society and has received an honors award from The American Academy of Ophthalmology. He is a clinical professor in The Department of Ophthalmology at Georgetown University and has been a recipient of the Prevention of Blindness Professional Service Award. Dr. Schwartz has served The American Glaucoma Society as a member of its Board and chairman of its nominating committee and has been a founding member of the American Glaucoma Society Foundation Board.
