

The Section on Statistics in Epidemiology (SIE) of the ASA grants annual Young Investigator Awards to new researchers for the best papers in statistics in epidemiology presented at JSM. Among the Young Investigator Award winners, the Breslow Award further recognizes the top paper.

The section is proud to present the 2021 Young Investigator Awards to the following individuals:

- **Runzhe Wan**, Department of Statistics, North Carolina State University (Breslow Award Winner)
- **Eric Cohn**, Department of Biostatistics, Harvard University
- **Wei Hao**, Department of Biostatistics, University of Michigan
- **Raphael Morsomme**, Department of Statistical Science, Duke University
- **Lili Wu**, Department of Statistics, North Carolina State University

The section would like to thank all those who participated in the Young Investigator Awards competition for their high-quality contributions. An awards ceremony will be held at this year's JSM in Seattle in recognition of the awardees. The location and time of the awards ceremony will be announced on the section's website and in the JSM program.
