Fall 2022 Issue

CHAPTER CHATTER

Annual Chapter Report

By Rick Peterson, ASA Chapters Manager

The Council of Chapters Governing Board (COCGB) vice chairs will be contacting the leaders of each chapter and asking them to complete an annual chapter report. The purpose of the report is to gauge the current health of ASA chapters by asking questions about the activities organized in 2022. Read a preview of the report.

Chapter officers should read the report preview to know what information is needed to complete the report. The COCGB will review the reports at its winter 2023 meeting and identify which chapters are particularly active and if there are any that require assistance from the ASA national office. Not submitting a report by the deadline may also signal a chapter is experiencing difficulty. Chapters not submitting a report will not be permitted to apply for chapter stimulus funding in 2023.

The vitality of each chapter is important to the COCGB and ASA. If you have any questions about the annual chapter report or the resources available to chapters, please feel free to contact me.
