

Nicole's statement of intent: Member at Large GA ANIA 2026

I currently serve as a Clinical Nursing Improvement Specialist within a small hospital system in Savannah, Georgia. Prior to relocating in July, I worked in Dallas, Texas, as a Clinical Informatics Analyst for a large healthcare system. I hold a Master of Science in Nursing Informatics (earned in November 2020) and achieved my Informatics certification in June 2023.

I was an active member of the DFW ANIA Chapter, where I served as Treasurer from 2024 until June 2025, stepping down only due to my move to Georgia. My time with the DFW Chapter was incredibly rewarding, providing opportunities to connect with Informatics professionals locally and nationally.

I am eager to continue building meaningful connections within the Clinical Informatics community and to share insights gained from both large and small healthcare systems. I look forward to contributing to the growth of the Georgia ANIA Chapter by fostering engagement, leveraging my prior chapter experience, and encouraging participation from colleagues within my current health system and other local organizations.

Thank you.

Nicole Menefee, MSN, RN, NI-BC
Clinical Nursing Improvement Specialist
