

Greetings GA ANIA members,

I, Paula Sanchez, accept the nomination of Member at Large for GA ANIA and am deeply honored to continue serving within my local chapter and community. My journey in nursing informatics has been defined by my passion to bridge gaps between evidence-based practices and innovative solutions that not only improve patient outcomes but additionally empower nursing professionals.

In serving as the Member at Large, I intend to continue bringing a positive, collaborative spirit that fosters inclusivity, professional growth, and knowledge-sharing. I believe that the strength of ANIA lies in its diverse voices and experiences, and I will work to ensure that every member feels valued and connected. My experience at Sankirtz has reinforced the importance of listening, translating needs into actionable strategies, and championing initiatives that deliver measurable outcomes. Collective efforts can continue building dynamic, supportive, and forward-thinking ANIA State Chapters that advances the mission of ANIA and the profession of nursing informatics across various industry disciplines.

In closing, I am grateful for this opportunity to serve and vow to uphold the GA ANIA bylaws. Additionally, I will continue serving and supporting GA ANIA initiatives; facilitating open dialogue and networking opportunities; and advocating for safer, quality healthcare that yields positive outcomes and professional nursing growth across this profession. Thank you in advance for this opportunity and look forward to serving in 2026.

Kindest regards,

Paula Sanchez, MSN, RN, A-CSPO
Sankirtz, CEO & Founder
