

Organizational Neuroscience and Biology

An Interest Group of the Academy of Management

Shape the Future of NeuB: Nominations Now Open!

Dear NeuB Members,

Our community thrives on the energy and vision of its leaders, and it is time to cast our net for the next wave of innovators. We are officially seeking nominations for two important roles within our interest group:

- 1. Program Chair-Elect**
- 2. Representative-At-Large**

*This year, the Academy is using a new platform, **Simply Voting**, to streamline the process. Whether you are looking to step into a leadership role yourself or know a colleague who would be a perfect fit, we want to hear from you.*

Key Details & Deadlines

- **Nominations Link:** <https://aom.simplyvoting.com/>
- **Deadline:** Tuesday, **17 March**, at 11:59 PM ET.
- **Self-Nominations:** Highly encouraged! Don't be shy about throwing your own hat in the ring.

Help Us Make the Best Choice

When submitting a nomination, please pay special attention to the “Supporting information/comments” section. To ensure the committee can make informed decisions, we ask that you justify your nomination.

Tell us why this candidate (or you!) is the right fit. What specific qualifications, experiences, or fresh perspectives will they bring to the NeuB leadership team? These insights are incredibly helpful to the committee during the selection process.

Why Serve?

Volunteering with NeuB is a chance to influence the direction of our field, expand your professional network, and give back to the community that supports our research. It is rewarding, impactful, and, quite frankly, a lot of fun to work behind the scenes with such a dedicated group.

Need Assistance?

Please feel free to reach out to us if you need clarification on the roles.

We look forward to seeing a robust list of candidates!

Best Regards,
NeuB Leadership Team

From the Desk of the Newsletter Chair: Your Voice, Our Impact

Dear NeuB Family,

As we prepare the next edition of the "NEUsletter," I have been reflecting on the incredible momentum within our community. Since our inaugural issue, it has been my personal mission to ensure this platform isn't just a document in your inbox, but a living pulse of the Organizational Neuroscience and Biology Interest Group.

We have the research, the passion, and the data—now, we need the stories.

The Spotlight is Yours: Call for Contributions

I am officially opening the doors for submissions for our upcoming edition. This is your platform to amplify your scholarly milestones and professional breakthroughs. Don't let your hard work stay behind a lab door—share it with the colleagues who value it most! We are looking for:

- **Fresh Off the Press:** *New books, journal articles, or chapters that are pushing the boundaries of NeuB.*
- **The Winner's Circle:** *Professional honors, grants, or accolades you have recently earned.*
- **Neuroscience in Action:** *Real-world applications where your research is changing how organizations function.*
- **The Town Square:** *Calls for papers, nominations, upcoming workshops, or conference news.*
- **The "Unclassified":** *Any NeuB-related news that doesn't fit a mold but deserves a stage.*

Connection is Just an Email Away

Innovation in our field happens through connection, collaboration, and the constant exchange of information. I invite you to leverage the NEUsletter to foster those very bonds.

Please forward your contributions, ideas for new features, or general inquiries directly to me. Let's make this next edition our most collaborative one yet.

Dr. Vaneet Kaur
