2020 Organizations and Natural Environment (ONE) Division
Book Award: Call for Nominations

The Organizations and the Natural Environment Division of the Academy of Management (ONE) Book Award recognizes the best book published in the previous three years (2017, 2018 or 2019) in the area of organizations and the natural environment.

KEY INFORMATION
- The recipient will receive an award plaque from ONE, a check for $500 from the ONE division and award sponsor, recognition at the annual AoM ONE Business Meetings (where the recipient of the award will be announced), as well as a listing with past Book Award winners on the ONE home page.
- At least one author (or editor for collected works) needs to be an ONE member.
- Edited books (books divided into chapters, each of which is written by a different author or group of authors) are eligible for the Book Award so long as they have a research focus in the ONE field, and have a value-added overview chapter by the editors.
- New editions of previously published works, while laudable, are not eligible for the ONE Book Award.

NOMINATION PROCESS
- Nominations by others and self-nominations are possible. Stage of career and background do not matter, so long as the member is in good standing at the Academy of Management.
- The nomination should be in the form of a brief supporting statement summarizing the book and explaining how the book addresses organizations and the natural environment topics.
- The nomination statement should be uploaded to this link, AND also addressed by email to Ana Cristina Siqueira (siqueiraa@wpunj.edu), ONE Awards Committee chair.
- The nominator or nominee should contact the publisher and request that a copy of the nominated title be sent to each of the book award committee members and Chair at the addresses below.
- The nomination statement deadline is April 30 2020. Books should be received soon after.

SELECTION CRITERIA
Nominated books will be judged according to four criteria:

1. Originality in substance and approach
2. Significance for scholarly and/or policy debate in the field
3. Rigor in approach and analysis
4. Readability
