*Please Join Our*  
**CONGRESSIONAL BRIEFING**

on Detecting and Preventing the  
Emergence and Spread of Pathogens

*Hosted by the Association for Professionals in Infection Control  
and Epidemiology (APIC) and Nozin*

---

While progress has been made, often-preventable healthcare-associated infections (HAIs) impact **1 in 31 hospitalized patients each day**, costing the healthcare system **more than \$28 billion annually** and contributing to **approximately 72,000 deaths each year**.

**Join us** for a conversation on the role of infection prevention and control in detecting and preventing the emergence and spread of dangerous pathogens.
