

PR 05/25

### Employee Parking Map

Parking lots G-2, G-3, F and J-2 are designated as employee and contractor/vendor parking lots. A-1 and G-1 require the use of yellow tags.

All employee and physician vehicles must have an Eisenhower parking sticker displayed on the front windshield or from a hanging tag at all times. If you need a permit, you can obtain one at the security office which is next to elevator 2 in the basement of the main hospital. Please call extension 8200 if you have any questions about parking stickers and hanging tags.

**Visitors for CA APIC:**  
 We will be located in the Annenberg Health and Sciences Center (the round building in the center, highlighted in orange). Parking is available in lots G-1, G-2, and G-3. The areas marked in red are reserved for patients and visitors only. There is also a shuttle that circulates the campus and picks up guests for convenience.
