Infection Prevention Units (IPU) for CIC Recertification Q&A

- Q: If someone was president, president elect, and past president from 2014-2016, would that count towards her recertification? I do not know the time frame. She is recertifying in 2021.
- **A:** The terms (of service) must happen during their recertification period, not before. If that person is recertifying this year, they may not be able to claim board participation if their term ended in 2016. From Nicole Plank, ACBA, Project Manager
- **Q:** Would these CEU's be acceptable to CBIC for IPU 'APIC offers these continuing education contact hours in accordance with Minnesota Board of Nursing requirements'?
- **A:** Yes, see way below, picture of the requirements for the IPU CEU. CBIC has verified that 'APIC offers these continuing education contact hours in accordance with Minnesota Board of Nursing requirements' is acceptable for accreditation. The board of nursing requirements are here.
- **Q:** What type of chapter service could be included in 'participation in professional organization'?
- **A:** CBIC also validated that committee membership can count for the professional org leadership IPU 'Participating in a committee, serving as a chair/co-chair, or serving as a Board member <u>all</u> qualify for IPUs.' APIC MN President or committee chair will be the responsible party to compose a letter on APIC MN letterhead. President or committee chair will validate with the committee chair that the committee member is/was actively participating.
