The articles in this issue represent the views of the Division of Fluid Dynamics (DFD) publication committee and are not necessarily those of individual DFD members or the APS.

Portland, OR November 20-22, 2016

Over 2700 abstracts will be presented at the 69th Annual Meeting of the American Physical Society's Division of Fluid Dynamics (DFD) meeting in Portland, OR on November 20-22, 2016. The meeting is being hosted by Portland State University, University of Washington and Oregon State University. The meeting will be held at the Oregon Convention Center in Portland, Oregon.

Portland and the Oregon Convention Center

Portland, Oregon's largest city, sits on the Columbia and Willamette rivers, in the shadow of snow-capped Mount Hood. It is known for its parks, bridges and bicycle paths, as well as for its eco-friendliness, microbreweries and coffeehouses. Iconic Washington Park encompasses sites from the formal Japanese Garden to Oregon Zoo and its railway. The city hosts thriving art, theater and music scenes. For more information on Portland go to: <http://www.travelportland.com/>

The Oregon Convention Center (OCC) is the largest convention center in the Pacific Northwest, making it an ideal venue for conventions, industry tradeshows, meetings and banquets.

Awards Program

Each year the APS Division of Fluid Dynamics presents the Fluid Dynamics Prize, the Francois N. Frenkiel Award, the Andreas Acrivos Dissertation Award and the Stanley Corrsin Award. The 2016 award winners are listed below and each awardee will give a lecture at the meeting.

2016 Fluid Dynamics Prize Recipient

Howard A. Stone, Princeton University
Seeking Simplicity in the Flows of Complex Fluids

The citation reads, "For seminal contributions to our understanding of low Reynolds number flows, microfluidics, interfacial phenomena and biological fluid dynamics, and for his inspirational contributions to teaching and communicating the beauty and power of Fluid Mechanics in Physics and Engineering."

2016 Stanley Corrsin Award Recipient

Ivan Marusic, University of Melbourne
High Reynolds Number Wall Turbulence

The citation reads, "For his seminal contributions to the understanding of turbulent wall-bounded flows through laboratory and atmospheric studies of long meandering structures, models of their effect on the wall stress, and extensions of the attached eddy hypothesis."

2016 François N. Frenkiel Award Recipient

Alexei Poludnenko, Texas A&M University
High-Speed Turbulent Reacting Flows: Intrinsic Flame Instability and its Effects on the Turbulent Cascade

For the paper titled: Pulsating Instability and Self-Acceleration of Fast Turbulent Flames Physics of Fluids Volume 27, 014016 (2015)

2016 Andreas Acrivos Dissertation Award Recipient

Daniel Quinn, Stanford University
How Flexibility and Dynamic Ground Effect Could Improve Bio-inspired Propulsion

Invited Lectures

Invited lectures on topics of broad interest to the DFD community will be given by experts in each field.

Ho-Young Kim, Seoul National University
Jumping on Water

Michel Stanislas, Ecole Centrale de Lille
Near Wall Turbulence: An Experimental View

Kathleen Stebe, University of Pennsylvania
Colloids at Curved Fluid Interfaces

Mark Glauser, Syracuse University
Turbulent Flow Physics and Noise in High Reynolds Number Compressible Jets

Arezoo Ardekani, Purdue University
Settling and Swimming in Density Stratified Fluids

Philippe Claudin, École Supérieure de Physique et Chimie Industrielles
An Explanation for the Bedforms on Comet 67P/Churyumov-Gerasimenko

David Hu, Georgia Institute of Technology
Ants, Eyelashes, and the 2015 Ig Nobel Prize in Physics

Minisymposia

The 2016 annual meeting will feature the following 5 minisymposia covering 2 topic areas. Each presentation is 26 minutes in duration.

Geophysical Turbulence Induced by Flow over Topography I

Geophysical Turbulence Induced by Flow over Topography II

Geophysical Turbulence Induced by Flow over Topography III

Multiphase Flows in Biomedicine I

Multiphase Flows in Biomedicine II

Focus Sessions

This year's program includes three Focus Sessions on two topics. Each presentation is 13 minutes.

Instabilities at Soft Interfaces I

Instabilities at Soft Interfaces II

Disgust: The Fluid Dynamics of the Gross

Posters

The number of poster research contributions to the Annual DFD Meeting has been growing over the past few years with over 127 posters submitted this year of which 19 are entered into a Student Poster Competition.

Student posters will be judged and awarded 1st and 2nd Prize for "Best Poster" in the following categories: Category 1: Computational fluid dynamics, Category 2: Experimental fluid dynamics and Category 3: Microfluidics and interfacial fluid dynamics

First and second place winners in each category will receive cash awards and certificates. Awardees will also be highlighted in the DFD Newsletter.

While the Technical Poster Session of the DFD Meeting is open to all participants, the Poster Competition will constitute a specific opportunity for graduate and undergraduate students to enhance their presentation skills and to build their professional network.

Gallery of Fluid Motion

The 34th Annual Gallery of Fluid Motion will be held as part of the meeting. The Gallery consists of posters or videos submitted by attendees illustrating the science - and very often also the beauty - of fluid motion. Both computational and experimental entries are encouraged. A panel will select outstanding poster and video entries based on artistic value, scientific content, and originality. The winning entries will be published as a special supplement to *Physical Review Fluids*. The top three winners in each category will be presented the Milton van Dyke Award consisting of a small monetary prize; a copy of the Album of Fluid Motion; and an award certificate. All posters and videos will be accessible on-line at <http://gfm.aps.org>.

Audiovisual Equipment

All rooms will be equipped with an LCD projector, screen, microphone, and pointer. Speakers must provide their own laptop computer to use with the projector. A Speaker Ready Room with technicians will be available to help attendees ensure that their presentations work smoothly with the LCD projection equipment. We suggest all presenters visit the Speaker Ready Room in advance of their presentation.

Exhibitor and Sponsorship Opportunities

Exhibits will be centrally located in Hall A of the Convention Center.

For more information on exhibits or sponsorship, please email Margaret McDonald at:

Conference Reception

This year the DFD Conference Reception will be held at the Oregon Convention Center. This is always a great way to catch up with others in the field and make new connections. There will be local Portland entertainment at the event which will surely captivate those that attend.

The reception is included in the registration fee for those who register as APS Members, Nonmembers, Graduate Students, and Retired Members. Undergraduate students and guests may purchase tickets for \$100.
