Long (Facebook/LinkedIn):

Not all women in the average physics high school class know the power of a physics degree. The STEP UP project is changing that by providing high school physics teachers with research-based pedagogical tools that are shown to inspire young women to pursue physics. Join the 1,000+ strong movement by registering online, where you will find lesson plans, a guide to support shifting classroom culture, instructional videos, and FAQs on lesson implementation.

Short (Twitter)

STEP UP is a national community of physics teachers, researchers, and professional societies. Join the movement to empower teachers, create cultural change, and inspire young women to pursue physics in college.
