Role of the BMT Coordinator

American Society for Blood and Marrow Transplantation

Friday, February 24, 2017
S. Elizabeth “Sam” Sharf
Clinical Program Director, UNC-Chapel Hill
Disclosures

There are no financial disclosures or conflicts of interest to report.

Objectives

- Describe variations between staffing models for the Transplant Coordinator role in SCT
- Describe differences between the pre-transplant and post-transplant coordinator roles.
Previous efforts to evaluate transplant coordination staffing patterns have yielded little useful information or metrics across facilities.

Coordination roles and responsibilities are vital to efficient transplant programs.

Development of a staffing metric for transplant coordination is desirable but difficult.

No standing, annual staffing survey tools to track trends and share best practices – solid organ transplant does solicit routine staff surveys.
Creation of Survey & Methodology

- Elements of “coordination work tasks” were gathered by ASBMT Administrative SIG Staffing Workgroup Committee
- Survey was developed in Adobe Pro
- Distributed by ASBMT to Administrative Directors list serve, BMT Quality Roundtable, Nursing membership list serves
- Deadline for completion was October 28, 2016
- Survey was divided into three main sections plus site demographics including volume of transplants performed and FTE levels
Hypotheses Tested

- Centers will demonstrate some consistency in the application of staff roles to coordination tasks.
- It will be possible to measure metrics over time if a robust and repeatable survey tool can be developed.
- There may be consistent differences between how larger and smaller centers operate.
- If the survey tool is sufficiently easy to complete, the number of centers participating will provide strength to the statistics.
Transplant Coordinator Survey
Approximate time to complete: 10-15 minutes

The purpose of this survey is to assess the distribution of roles across the transplant coordination team to learn more about the differences across programs around the country. Individual responses will be kept confidential, but the aggregate data may be shared through the ASSMST or through publication. Please answer each question to the best of your ability. For clarifications, please contact alexis.stemberg@dfc.harvard.edu. Thank you for your support of this important effort.

TO = Transplant Coordinator
RC = non-RN in non-RN staff including schedulers, donor search or coordination staff, or other administrative staff
Other = MSW, data staff, LPNs, clinic RNs, or others who may perform specific transplant coordination tasks

Section 1: Responsibilities of the Pre-Transplant Coordination Team

For each of the following responsibilities, check the boxes under each role and/or write in the role in the “Other” field to indicate who performs these duties. You may select more than one role for each task, and not every task needs to be checked.

Does your Transplant Program perform Outpatient Transplants?  
Auto: Yes  No  Allo: Yes  No

What percentage of total volume is performed outpatient?  
Auto: \(0\%\)  \(26-75\%\)  \(>75\%\)

Does your Transplant Program perform Cellular Therapy (such as CAR T-cell or CMV CTL therapy)?  
Yes  No

If yes, approximately how many in the past 12 months?  
Auto: \(1-10\)  \(11-25\)  \(>25\)

For each of the transplant coordination roles, how many FTEs do you have performing these functions?

<table>
<thead>
<tr>

Please describe other roles:

- May we contact you for further clarification if required?  Yes  No
- Would you like follow-up information regarding the results of this survey?  Yes  No
- If yes, please provide your contact information:
  - Name:  
  - Phone number:  
  - Email:  

Please provide any additional information or comment here:
Survey Response

- 39 centers returned surveys

Analysis approach

- Grouped tasks into main categories
- Divided responses into large and small centers based on overall volume (>250 n=16 vs. <250 n= 23)
- Also evaluated a single “middle” group by removing outliers (range 100-500), n = 29
Survey Response

Who answered the survey? Variety of RN and non-RN roles

- Administrative Directors
- Program Managers
- Transplant Coordinators
- Quality Managers
- Nurse Managers
- Medical Directors
- Physician Assistant
Survey Limitations

- Technology (Adobe tool) generated problems in a few centers which were resolved in different ways.

- Interpretation of how tasks or roles are defined was variable – example:
  - Some centers put “donor search coordinator” as an “other” role; some centers included that role as one of their “transplant coordinators”.

- The person completing the survey tended to interpret assignment of tasks based on their perspective.

- Two major centers submitted multiple responses:
  - One demonstrated high level of consistency across responses.
  - The other showed large variation.
  - This was resolved through contact with the centers.

- Opportunities for variable responses were overused by respondents.
### Definitions

**Role**
One of the 6 categories for a job classification: TC-non RN, TC-RN, NP/PA, Financial, MD, Other

**TC**
Transplant Coordinator – designated personnel to coordinate care throughout the transplant patient’s treatment

**TC-non RN**
Transplant Coordinator who is not a nurse

**Task**
A responsibility assigned to that role

### Counting Tasks

<table>

<table>
<thead>
<tr>
<th>Role</th>
<th>Large (n=16)</th>
<th>Small (n=23)</th>
</tr>
</thead>
<tbody>
<tr>
<td>TC-non RN</td>
<td>20</td>
<td>15</td>
</tr>
<tr>
<td>TC-RN</td>
<td>45</td>
<td>35</td>
</tr>
<tr>
<td>NP/PA</td>
<td>15</td>
<td>15</td>
</tr>
<tr>
<td>Financial</td>
<td>10</td>
<td>5</td>
</tr>
<tr>
<td>MD</td>
<td>15</td>
<td>15</td>
</tr>
<tr>
<td>Other</td>
<td>20</td>
<td>15</td>
</tr>
</tbody>
</table>
Distribution of Tasks by Job Title: Dividing “Large” and “Small” Centers

Large (n=16)
Small (n=23)

Post-Transplant Work Distribution

Pre-Transplant Work Distribution

Donor Search and Product Collection Work Distribution
Distribution of Tasks by Role
Counting only Centers with 100-500 transplants/year (removing top and bottom outliers)

N = 29
Pre-transplant/Post-transplant Distribution of Tasks

![Bar chart showing the distribution of tasks pre and post transplant. The chart includes categories such as Other, MD, Financial, NP/PA, TC-RN, and TC-non RN.](chart.png)
Job roles specified in the “Other” category

Count of the total tasks

- Social Worker (131)
- Clinic RN (57)
- Lab Personnel (53)
- Data Management (47)
- Pivot Nurse (38)
- Nurse Navigator (35)
- Donor/Search Coordinators (32)
- Administrative staff (27)
- Pharmacy (23)

All “other” roles, including QA staff, Research staff, Case Manager
Distribution of Specific Tasks within Patient Education

Patient Education Work Distribution

- Acts as liaison between patients, families and health care team (Pre)
- Facilitates signing of consents (ex: for treatment, storage of product, data submission) (Pre)
- Meets with the patient/family during the new patient evaluation/initial consultation (Pre)
- Provides education regarding the stem cell transplant process to potential patients and families (Pre)
- Participates in patient education regarding post-BMT care (Post)

Legend:
- TC-non RN
- TC-RN
- NP/PA
- Financial
- MD
- Other
Conclusions

- Smaller centers rely on Transplant Coordinators who are RNs more than large centers
- There are many overlapping roles and responsibilities among the different role categories
- Pre-transplant coordination of care involves TC-RNs more than post-transplant coordination of care
- Post-transplant coordination of care shifts more to include APPs

This survey confirmed the need to further obtain and refine job-specific data so that identifiable metrics can be created for use by all Transplant Programs.
Lessons Learned

- Reorganize survey tool into major task categories

- Emphasize that this survey is about coordination and not all transplant care

- Role of person answering survey has an impact on interpretation
  - Divide survey responses by role of person completing survey
  - Request only certain roles to complete the survey?

- Request FTE numbers in a more generalized way to collect overall staffing across various program coordination models

- Reassess program type split: Peds/Adult, large/small, Auto only/Auto + Allo
Lessons Learned

- Run survey each year to continuously improve survey tool, data, develop metrics, and follow trends
  - Acknowledge roles indicated frequently in Other category, such as Social Worker
  - Incorporate indication of emerging jobs/roles
- Look at other survey technology
- Distribute survey more robustly to obtain more responses

Overall, we were pleased with this first venture into obtaining more specific information about the Transplant Coordinator role.
Question #1

Would you be interested in taking staffing-related surveys in the future including future iterations of the Transplant Coordination survey? (CHOOSE ONE)

1. Yes
2. No
3. Maybe
ANSWERS

Live Survey Link:  https://api.cvent.com/polling/v1/api/polls/sp-fwy11
Question #2

Is there a time of year when you would prefer to take this survey? (CHOOSE ONE)

1. Winter
2. Spring
3. Summer
4. Autumn
5. Doesn’t matter
ANSWERS

Live Survey Link:
https://api.cvent.com/polling/v1/api/polls/sp3k9r4v
Question #3

What is the best mode to communicate that a survey is available to take? *(CHOOSE ALL THAT APPLY)*

1. Email from the NMDP
2. Email from the ASBMT
3. Notification on the ASBMT website
4. Notification via list-serve (Administrative Directors, Quality)
ANSWERS

Live Result Link:
https://api.cvent.com/polling/v1/api/polls/sppot44w
Question #4

What information is the **MOST valuable** to you from a staffing coordination survey? (CHOOSE ONE)

1. Metrics regarding how many transplant coordination staff members I need.
2. Alternative roles within the Transplant Coordination category (ex: Donor Coordinator, Search Coordinator, Post-Transplant Coordinator)
3. How to better utilize non-RN personnel in the coordination of care for our BMT Program.
4. Talking points to share with hospital administration when seeking support for our BMT Program.
ANSWERS

Live Result Link: https://api.cvent.com/polling/v1/api/polls/sp-arioqf
Question #5

Does your program use RNs dedicated to post-transplant coordination? (CHOOSE ONE)

1. Yes
2. No
3. Unsure
ANSWERS

Live Result Link: https://api.cvent.com/polling/v1/api/polls/sp-u1dr6b
Question #6

Who does the MOST amount of work transitioning your post-BMT patients back to their primary oncologist? (CHOOSE ONE)

1. MD
2. APP
3. RN
4. non-RN
ANSWERS

Live Result Link: 
https://api.cvent.com/polling/v1/api/polls/spoxiqfq
Question #7

What terminology does your institution use to describe the position that is focused on Transplant Coordination? (CHOOSE ONE)

1. Transplant Coordinator
2. Transplant Nurse Coordinator
3. Nurse Navigator
4. Clinical Care Coordinator
5. Other
ANSWERS

Live Result Link: https://api.cvent.com/polling/v1/api/polls/sp-vvys21
Question #8

Does your BMT Program currently have a **BMT Survivorship/Long Term Follow-up Clinic** established?

1. Yes
2. No
3. In-progress
4. Not sure
ANSWERS

Live Result Link:
https://api.cvent.com/polling/v1/api/polls/sp7lsj34
Question #9

Do you have separate coordination staff who care for related donors who are not part of the recipient’s coordination team? (CHOOSE ONE)

1. Yes, we have coordination staff who exclusively support donor care.

2. Yes – we have coordination staff who care for donors along with other responsibilities.

3. In the process of developing a separate donor care team

4. No
ANSWERS

Live Result Link: https://api.cvent.com/polling/v1/api/polls/sp-dtro09
Do you have an independent PROVIDER evaluating related/unrelated donor suitability? (CHOOSE ONE)

1. Yes, completely separate provider team, only cares for donors but not transplant candidates.

2. Yes, separate provider but also cares for transplant candidates

3. No

4. In progress of establishing
ANSWERS

Live Result Link: https://api.cvent.com/polling/v1/api/polls/sp-6251nd
Question #11

Do you intend to participate in the NMDP’s new RELATED Donor Collection Program? (CHOOSE ONE)

1. Yes
2. No
3. Maybe
4. Not sure what this question refers to
ANSWERS

Live Result Link: https://api.cvent.com/polling/v1/api/polls/sp-1nasat
Acknowledgments

ASBMT Administrative Directors SIG Staffing Subcommittee Members:

Clint Divine, University of Kansas Cancer Center
S. Elizabeth “Sam” Sharf, University of North Carolina at Chapel Hill
Amy Emmert, Dana Farber Cancer Institute
Alexis Steinberg, Dana Farber Cancer Institute
Sandra Rudolph, University of Alabama
Laura St. Germaine, Fred Hutch Cancer Center
Scott Eldredge, Moffitt Cancer Center

Thank you to all Transplant Centers who participated in the original survey!
