Medicare-Certified ASCs in New Mexico

Ambulatory Surgery Centers (ASCs) Provide High-Quality Care

ASCs that serve Medicare patients must meet federal requirements to ensure patient safety and the quality of services.

ASCs Save Medicare Money

ASCs **save Medicare approximately \$7 billion a year**, according to a recent analysis by KNG Health Consulting, LLC. If current trends in Medicare outpatient surgery continue, procedures performed in ASCs rather than hospitals could **save Medicare \$73.4 billion** in the next ten years.

Savings for Top Services Performed in ASCs

Ophthalmology:	\$10,615,387
Gastroenterology:	\$3,719,278
Orthopedics:	\$2,244,957
