ASCs in Mississippi

Ambulatory Surgery Centers (ASCs) Provide High-Quality Care in Mississippi

ASCs that serve Medicare patients must meet federal requirements to ensure patient safety and the quality of services.

ASCs Save Medicare Money

ASC's **save Medicare more than \$4.1 billion in 2018 alone and more than \$28.6 billion in total since 2011**, according to a recent analysis by KNG Health Consulting, LLC. If current trends in Medicare outpatient surgery continue, procedures performed in ASCs rather than hospitals could **save Medicare \$73.4 billion** in the next ten years.

Savings for Top Services Performed in ASCs
