

FOR IMMEDIATE RELEASE

AUPHA ANNOUNCES FULL LAUNCH OF COMPENSATION & BENEFITS PORTAL

ARLINGTON, Va. – The Association of University Programs in Health Administration (AUPHA) is pleased to announce the full launch of the Compensation & Benefits portal, a part of the Benchmarking for Education in Healthcare Management (BEHM) platform. Soft launched in March 2013 for a data collection phase, the portal now allows participants to compare their compensation and benefits data and download reports based on pre-set filters, such as Position, Gender, Age, Ethnicity, and Academic Setting, in either Adobe or PowerPoint formats. The portal replaces the annual Faculty Compensation Survey, which was previously completed at the program level, but now allows individual faculty the opportunity to report this data and pull information pertinent to their position.

The BEHM platform was originally launched in June 2012 as a single portal for programs to report their yearly program data and then benchmark themselves against other AUPHA member programs. Now a multidimensional platform with both an Operations portal and Compensation & Benefits portal, BEHM provides AUPHA program members even more opportunity to better lead their programs and careers by identifying best practices as well as areas for improvement and advancement.

The Benchmarking for Education in Healthcare Management platform is a dynamic online business benchmarking and reporting software provided by Dynamic Benchmarking. To access BEHM, visit <http://benchmarking.aupha.org>.

###

About AUPHA

The Association of University Programs in Health Administration (AUPHA) is a global network of colleges, universities, faculty, individuals and organizations dedicated to the improvement of healthcare delivery through excellence in healthcare management and policy education. Its mission is to foster excellence and drive innovation in health management and policy education, and promote the value of university-based management education for leadership roles in the health sector. It is the only non-profit entity of its kind that works to improve the delivery of health services—and thus the health of citizens—throughout the world by educating professional managers at the entry level. AUPHA's membership includes the premier Baccalaureate, Masters and Doctoral Degree Healthcare Management & Policy Programs in the United States, Canada, and around the world. Its faculty and

individual members represent more than 400 colleges and universities. For more information, please visit www.aupha.org.

About Dynamic Benchmarking

Dynamic Benchmarking brings business benchmarking into the 21st century using the latest in web-based technology and reporting functionality. They partner with professional associations and other organizations to offer Stack-Up™ to their members as a way of enhancing association value, contributing to member success, collecting industry trend data and creating non-dues based revenue. Stack-Up integrates their clients' industry expertise and information needs into a benchmarking platform allowing their members to easily compare financial and operational performance against their peers in a dynamic and interactive manner. It offers the features and capabilities of custom software in a format that is easy and quick to deploy. With their exclusive focus on benchmarking, Dynamic Benchmarking builds solutions that are flexible and scalable across a wide breadth of industries, organizations and users. For more information, please visit www.dynamicbenchmarking.com.
