

Chris Louis, PhD, MHA, is Clinical Professor and Associate Chair of Health Law, Policy, and Management at the Boston University School of Public Health. Here, he directs the Healthcare Management Program and all Dual Degree Programs. His research examines the social and economic impacts of gambling, health care organization and delivery, Medicaid innovation, and cancer care. Dr. Louis is PI of a three-year, \$2.5 million Massachusetts Gaming Commission-funded study on the impacts of sports betting and casinos on Massachusetts. He has previously served as PI or Co-Investigator on state, federal, and privately funded projects totaling more than \$35 million. These include an American Cancer Society-funded study of breast cancer screening in Appalachia, multiple evaluations of Arkansas Section 1115 Medicaid waivers, and an evaluation of a HRSA-funded initiative to improve care for medically complex children. His work is published in Health Affairs Scholar, Health Services Research, the Journal of Health Policy, Politics, and Law, Health Care Management Review, JHAE, and the Journal of Rural Health. Dr. Louis spent nearly a decade in health care strategy, operations, and project management. Dr. Louis earned his PhD in Health Policy & Administration from Penn State University, a MHA from the University of Florida, and a BS in Business Administration from Sacred Heart University.
