Smart Belt Coalition
A Multi-Jurisdictional Approach to Testing and Deployment of CV/AV Applications and Emerging Technologies

OVERVIEW
Fosters collaboration in the areas of research, testing, policy, standards development, deployment, and outreach

INITIAL COLLABORATION
WORK ZONE RESERVATION AND TRAVELER INFORMATION SYSTEM
- Develop and deploy standardized application to manage lane reservation
- Collect and transmit accurate work zone data to third parties
- Set foundation for V2I applications

FUTURE PROJECT INITIATIVES
- Truck Platooning
- V2I Traffic Incident Management Applications
