Online Programs

Alumni Career Change Program

Through our partnership with Mission Collaborative, we are offering this 30-day program for our alumni. The program provides career change management strategies for those in their mid-career, requiring about 5 hours of self-paced work time per week. The next cohort will begin in late August. Click here for more information.

United Planet

Our partners at United Planet, an international non-profit with the mission of creating a global community one relationship at a time, have now launched virtual volunteering and virtual internship opportunities! This allows volunteers and interns to continue to make a difference during a time where international travel restrictions and bans have caused many international programs to halt their operations. You can find more information about these opportunities and the application on their website. All BGS members will receive a 10% discount on the program fees.
Career Central

New this spring is our BGS Career Central! It’s a main hub for advice and resources focused on helping you be more successful, no matter where you are in your career. On Career Central, you’ll find all kinds of career-focused content—access to job boards, articles, blog posts, videos and more. We aim to make it your go-to place for your career related advice and opportunities. Career Central will launch next week—watch your email for more details!
