THE INTERNATIONAL BUSINESS HONOR SOCIETY

ETHICAL LEADERSHIP CERTIFICATION

Hi Valued Member,

Did you know that completing the [Ethical Leadership Certification Program \(ELCP\)](#) can help you stand out in your job search?

Lately, companies have become very concerned about the damage employees can inflict on their employer's reputation. And when they're trying to decide between two equally qualified candidates, this certification could be the deciding factor.

But you'll get more than an addition to your resume: you'll learn **crucial leadership skills, like conflict management, effective communications and decision making**—skills you'll take with you throughout your career.

Charles, a BGS member at St. Bonaventure University, felt much more prepared to be a leader when he finished the training:

"The ELCP is one of the most straightforward and meaningful programs I have ever taken part in ... The ethical dilemmas showed examples of situations that I could encounter in the business world, highlighting issues that were morally gray instead of being black and white."

The spring discount ends soon! Save 10% when you enroll before May 1st—enter the code "BGSSPRING21" at checkout!
