## **Job Description: Investment Analyst – Investment Department**

**Company:** Burj Clean Energy Modaraba (BCEM)

**Location:** Phase 8, DHA, Karachi.

### **Role Overview**

The Investment Analyst – C&I will support the origination, evaluation, structuring, and execution of clean energy projects (solar, wind, BESS) for commercial and industrial clients. The role combines financial modeling, deal execution, and client engagement within BCEM's Shariah-compliant Modaraba structure.

### **Key Responsibilities**

#### **1. Financial Modeling & Analysis (20%)**

- Build financial models for renewable energy projects
- Evaluate feasibility using IRR, NPV, payback, and sensitivity analysis
- Model PPA structures, tariffs, and project cash flows

#### **2. Deal Execution & Structuring (30%)**

- Support deal execution from origination to financial close
- Assist in structuring Shariah-compliant financing (Modaraba, Ijarah, BOOT)
- Prepare IMs, term sheets, and proposals
- Coordinate with technical, legal, and finance teams

#### **3. Commercial & Client Engagement (50%)**

- Engage clients to understand energy needs and financial objectives
- Support negotiations on tariffs and contract terms
- Assist in client meetings and presentations

### **Required Skills**

- Strong financial modeling and Excel skills
- Understanding of project finance and energy economics
- Strong communication, presentation, and negotiation skills
- Attention to detail and ability to manage multiple deals
- Basic knowledge of contracts and banking/financing structures
