

Credit Analyst

360Basirah • Islāmābād, Pakistan (Remote)

About the job

We're Hiring: Credit Analyst

📍 Islamabad, Pakistan

🏢 360Basirah — Because Knowing Matters

We are building a new category at the intersection of **banking expertise and artificial intelligence**.

At 360Basirah, we are not digitizing banking. We are **reconstructing how financial intelligence is created**—by embedding real credit expertise into AI systems that will define the next generation of lending, risk, and financial interpretation.

We are hiring **senior credit professionals** who have operated inside real lending environments and are ready to extend their impact beyond traditional banking.

Minimum Requirements (Non-Negotiable)

- 5+ years in Corporate Credit / Relationship Management (Assets / Lending)
- Proven hands-on experience in:
 - Working Capital Facilities
 - Corporate & Commercial Lending
 - Financial Statement Analysis
 - Credit Risk Assessment / Credit Report Writing
- Bachelor's degree in Finance, Business, Economics, or related discipline
- CFA (mandatory)

Role Mandate

You will:

- Translate real-world credit logic into structured systems for AI training
 - Work directly with engineers to embed banking intelligence into models
 - Build lending frameworks, risk logic, and financial interpretation layers
 - Convert institutional banking experience into scalable financial intelligence
- This is not a documentation role. It is a **systems-building role for banking expertise**.

Profile We Are Looking For

- Deep, practical credit underwriting experience (not theoretical exposure)
- Strong analytical and commercial judgment
- High intellectual rigor and discipline
- Willingness to operate at the frontier of finance and AI
- Low tolerance for ambiguity, high standards for execution

Application Requirements (Strict)

- Updated CV
- Last 3 months' payslips
- Expected compensation

Applications missing any of the above will not be considered.

Only candidates who fully meet the criteria will be contacted.
