

Deputy Chief Investment Officer (CIO) - (Dubai Onsite Job)

Rapid Global Growth · APAC (Remote)

Are you ready to push the boundaries of innovation while accelerating your career at breakneck speed?

Join Rapid Global Growth (RGG), a dynamic international group, at our Dubai headquarters. As the technology and operations powerhouse behind Puffy - a Top 5 US mattress brand and one of North America's fastest-growing D2C companies - RGG drives innovation in global businesses. Since our launch in 2016, we've supported its remarkable 100% YoY growth, earning recognition from Forbes, Entrepreneur.com, and TechCompanyNews.

We are seeking an exceptional **Deputy CIO** to join our team in Dubai. In this role, reporting to the CIO and CEO, you will architect sophisticated investment strategies that drive multi-million dollar portfolio growth across diverse asset classes. This is a unique opportunity to shape high-impact capital allocation decisions within a rapidly expanding global organization.

Why This Role Will Transform Your Career**Own a High-Scale Impact**

- Direct strategic oversight of investment decisions impacting significant capital allocations across global markets.

Collaborate with the Top 1%

- Work directly with our Forbes Council Member CEO, gaining rare executive mentorship and a front-row seat to elite-level thought leadership.
- Join a high-performance environment alongside the top 1% of global talent who delivered success across industries.

Experience Tax-Free Prosperity & World-Class Lifestyle

- **Competitive salary range of AED 50,000 - 70,000/month based on experience and qualifications, plus a discretionary bonus, all tax-free.** This transparent range represents

our full compensation spectrum, with specific offers determined by relevant experience and demonstrated expertise.

- Enjoy full relocation support: flights, visa sponsorship, and two weeks of hotel accommodation on arrival.
- Thrive in our modern Dubai Internet City headquarters, complete with organic snacks, curated wellness programs, and a vibrant international team of 16+ nationalities.

Innovate with the most advanced Tools & Tech stack

- Leverage Bloomberg, Barra/Axioma, and proprietary quantitative models to drive sophisticated investment decisions.
- Utilize advanced Python-based analytics frameworks and cutting-edge financial modeling tools.

Accelerate Your Growth Trajectory

- Fast-track your path to leadership: our headcount has grown over 60% in the last 3 years, creating numerous advancement opportunities.
- Access a robust learning budget, fueling continuous skill expansion.

What You'll Achieve

- **Architect Strategic Investments:** Lead the development of sophisticated hedge fund portfolio strategies across multiple asset classes that drive exceptional returns.
- **Design Risk Management Excellence:** Develop and implement comprehensive risk frameworks that ensure robust oversight while optimizing portfolio performance.
- **Lead Quantitative Innovation:** Spearhead research initiatives that enhance our risk models across equities, credit, and options markets.
- **Drive Investment Policy Formation:** Partner with the CIO to formulate strategic investment approaches that balance growth objectives with appropriate risk parameters.
- **Deliver Critical Market Intelligence:** Generate sophisticated risk analytics and performance insights that inform executive decision-making.
- **Cultivate Investment Talent:** Mentor team members while fostering a culture of analytical excellence and innovative investment thinking.

Ideal Profile

- 10+ years of proven investment management experience with significant exposure to hedge fund operations and selection, preferably within family office environments.
- Advanced degree (Masters or PhD) from a top-tier institution in Finance, Mathematics, Physics, or related quantitative field.
- Exceptional quantitative capabilities with advanced Excel skills and strong programming proficiency in Python for complex financial modeling.
- Demonstrated expertise in multi-asset class portfolio management, with particular focus on equities, credit, and options.
- Proven track record developing sophisticated risk management frameworks that perform successfully even in volatile market conditions.
- Deep understanding of financial markets, including derivatives and complex financial instruments.
- Strong leadership abilities with excellent communication skills for engaging effectively with senior stakeholders.

Good-to-Have Skills

- Additional professional certifications such as CFA, FRM, or equivalent.
- Experience with emerging markets and related investment strategies.
- Knowledge of regulatory frameworks across multiple jurisdictions.
- Advanced programming skills in Java or C# to complement Python expertise.

Compensation & Perks

- **Industry-leading salary** plus **performance bonus**, all **tax-free**.
- **Full Relocation Coverage:** Flights, visa sponsorship, plus two weeks of hotel upon arrival in Dubai.
- **Health & Wellness:** Comprehensive international medical, dental, and vision coverage, plus a wellness-focused campus stocked with healthy snacks and beverages.
- **Elite Peer Group:** Collaborate daily with the top talents at RGG—our environment fosters continuous growth and learning.
- **Career Fast-Track:** Clear pathways to high impact and leadership roles, backed by a devoted mentorship framework and an annual professional development budget.
- **Global Growth & Recognition:** Be part of a company recognized by Forbes, featured in Entrepreneur.com, and achieve unstoppable momentum in e-commerce.
