

Strategy & Financial Analyst

Gatronova • Karāchi, Sindh, Pakistan (On-site)

About the job

We're Hiring: Strategy & Financial Analyst

Are you someone who loves spotting business opportunities and then actually knows how to build the case, the model, and the plan to make them real? We're looking for a **Strategy & Financial Analyst** to join our team and drive our next phase of growth.

What You'll Do:

- Identify and evaluate new business opportunities across various avenues
- Build financial models and conduct feasibility studies (ROI, break-even, sensitivity analysis)
- Navigate the practical side of setting up businesses in Pakistan — SECP registration, licensing, tax/FBR requirements, and legal structuring
- Track action items and drive multiple initiatives to completion
- Present findings and recommendations to leadership

What We're Looking For:

- Bachelor's in Finance, Accounting, Economics, or Business Administration
- ACCA / CFA / CA / ICMA / MBA a strong plus
- 2–5 years in financial analysis, strategy, consulting, or business development
- Strong Excel/financial modeling skills
- Familiarity with Pakistan's business registration & regulatory landscape
- A self-starter mindset — comfortable turning ambiguity into action

Why Join Us:

This is a high-visibility role for someone who wants more than routine financial analysis — you'll be at the table when new business ideas are born and help take them from concept to launch.
