

## **Stock Market Analyst & Trading Specialist**

TheHiring.Official · Lahore, Punjab, Pakistan (On-site)

### **About the Company:**

A well-known and established company is seeking a dedicated and skilled **Stock Market Analyst & Trading Specialist** to lead and manage its stock trading activities. This is an excellent opportunity for a finance professional to join a progressive organization and contribute to its investment growth.

### **Key Responsibilities:**

- Analyze stock market trends to make informed investment decisions.
- Manage and optimize a diversified stock portfolio.
- Maintain accurate records of all trades and performance evaluations.
- Provide market insights and financial recommendations.
- Ensure compliance with trading regulations and internal policies.
- Align trading decisions with broader business objectives.
- Deliver periodic performance reports and investment analysis.
- Collaborate with senior management on long-term strategies.

### **Requirements:**

- Minimum 3 years of experience in stock market analysis or trading.
- In-depth knowledge of stock market operations and investment strategies.
- Strong skills in financial modeling and data analysis.
- ACCA or CFA qualification is **mandatory**.
- Bachelor's or Master's in Finance, Economics, or a related field (preferred).
- High attention to detail, strong communication skills, and ability to perform under pressure.
- Proficiency in Microsoft Office and relevant financial tools.
