Financial Analyst
micro1 · APAC (Remote)

Job Title: Financial Analyst

Job Type: Part-Time

Location: Remote

Job Summary:
We are seeking a proficient Financial Analyst to join our dynamic team on a part-time basis. The ideal candidate will have a strong background in financial data analysis and investment strategy, with a specific focus on embedded finance. This role requires excellent research capabilities and the ability to synthesize information from various sources to drive predictive analytics and visualization.

Key Responsibilities:

- Conduct comprehensive financial data analysis to support strategic decision-making.
- Develop and implement investment strategies and advisory reports.
- Utilize predictive analytics to forecast financial trends and performance.
- Create detailed financial models and visualization tools.
- Engage in embedded finance projects with cross-functional teams.
- Maintain a keen awareness of the Asian economy and financial markets.
- Communicate findings and strategies clearly through written reports and verbal presentations.

Required Skills and Qualifications:

- Proven experience in financial data analysis and investment strategy.
- Strong capability in predictive analytics and data visualization.
- Excellent written and verbal communication skills.
- Possess CFA, CIIA, or CMA certification or have substantial experience as a financial analyst.

- Proficient in conducting online research and synthesizing diverse information sources.
- Previous experience with MBB firms or large finance institutions.

Preferred Qualifications:

- Based in Asia or substantial experience working in Asian markets.
- In-depth understanding of the Asian economic landscape.
